

The GED Program

Office of Youth Services
713-715 Broadway
Camden, New Jersey 08103
Phone: 856-757-7644

The Office of Youth Services conducts a non-traditional GED program that continues to benefit youth and adults. Most applicants are accepted in the program with the belief that if we cannot help you pass your GED test we can definitely improve your reading and math skills. The program operates in two cycles from January to June and July to December with a current enrollment of fifty in each cycle. The program also prepares students for employment skills, vocational guidance, computer training, and employment referral. College preparation is the prerequisite choice and most students do attend college upon obtaining their GED.
