MEMORANDUM

From: Angel Fuentes, Council At-Large
Date: June 1, 2016

RE: Ordinance: Creation of a Youth Court

Ordinance, the creation of a Youth or Teen Court in Camden City. A solution to help at-risk kids and teenagers, from 12 years old to 18 years old. To advocate for education, prevention, diversion and intervention services for youth.

Youth Violence and Crime is prevalent in Camden City. The Mayor, City Council, Camden Police, Municipal Court, and Camden City Board of Education want to be proactive in reducing youth crime and violence. Therefore, we are under a lot of pressure to develop strategies and policies to address and control this problem within our jurisdiction.

The implementation of a Youth Court Program in Camden City is to deal with first-time and less serious offenders. This Youth Court (perhaps, it could be named: Judge Joseph Rodriguez, from Camden and is a Federal Judge), is to reduce the incidence of juvenile crime and enhance youth civic engagement through community-based prevention / diversion, education and youth development programs and services (e.g., after school programs, mental health services, etc.).

In addition to the contribution that young people can make to the decision-making process, this type of meaningful participation fills other goals of teen court programs by empowering youth to assist in addressing real problems within their community.

Young people will be learning about consequences of doing wrong things; yet, they will be learning about positive and health behaviors as well as respecting the laws. It increases life and coping skills of youth in the community. Finally, it teaches youth to become responsible and productive citizens through youth helping youth.

Consequences and sanctions (community service, restitution, counseling, and apology to the victim) for the offenders. This program will hold youthful offenders accountable and provide educational services to offenders and youth volunteers in an effort to promote long-term behavioral change that leads to enhanced public safety.

Maintaining adequate funding from the local, state, federal governments, and from the Camden County Prosecutor's Office (allocations from drug monies for a good program). Also, from local businesses, corporations, developers, fundraisers, and foundations.

I think we need to ask ourselves, "Are youth Courts effective?"

I believe it does. Teen court can offer prevention and intervention. Peers to peers approach, I believe this program will aim at addressing and reducing juvenile crime in our neighborhoods.

The Attorney General's office came up with this Blue Ribbon Panel and recommended, which is in place, for the City to be divided geographically into 4 districts and with its own Captains.

A study was conducted by the Urban Institute in 2002, its findings suggest that teen courts may be a positive alternative to the traditional juvenile justice system.

Schools and Rutgers can help produce or review training materials to ensure they are written at an appropriate level of understanding for volunteers and serve as facilitators of training events.

Possible key stakeholders: Parents and youth, city officials, educators, mental health counselors, probation department, victims, youth based organizations, lawyers (e.g., prosecuting attorneys), judges, community leaders, and law enforcement agencies.

Forming a Task Force or Advisory Committee: Many developers of teen court programs have found it helpful to form a task force or an advisory committee to assist during the development and implementation process. It helps bring fresh and diverse perspectives to the process, thus yielding more reliable and credible information on which to build a foundation. We need you to make suggestions and offer guidance on the design and operation of the program. We look to your skills and knowledge in which you can bring to the process.

The implementation will take months in the working. There will be a process for young people to join and be trained as well. We will reach out to Rutgers University: 1. Civic Engagement and, 2. Law Department. We will reach out to the Municipal and Presiding Judge to give words of encouragement.

I invite all who feel as many of us do to

Ordinance to opt out of the PARCC Assessment testing

ORDINANCE

RESOLUTION REGARDING
PARTNERSHIP FOR ASSESSMENT OF READINESS FOR COLLEGE AND CAREERS ("PARCC") TESTING

WHEREAS, the members of the City Council of the City of Camden fully support educational policies and practices designed to provide results that promote and improve student achievement, college and career readiness—particularly for students with special educational needs or are of limited English proficiency--and best teaching practices, and are deeply concerned with the recent changes to the graduation requirements, and the high stakes and ongoing costs associated with New Jersey's new standardized assessment system; and

WHEREAS, the State of New Jersey is transitioning to a new assessment system with new state tests known as the Partnership for Assessment of Readiness for College and Careers ("PARCC") Assessments; and

WHEREAS, the New Jersey Department of Education ("NJDOE") has replaced the High School Proficiency Assessment ("HSPA"), which had passing rates of 80-90%, with PARCC Assessments, which less than half of all NJ high school seniors have passed; and

WHEREAS, beginning with the class of 2016, the NJDOE has proposed new high school graduation requirements that rely heavily on PARCC, before the validity and reliability of those assessments have been established; and

WHEREAS, New Jersey is one of only two states in the nation using the new PARCC Assessments this year as one graduation exit test; and

WHEREAS, the NJDOE has eliminated the Alternative High School Assessment ("AHSA"), previously used to satisfy state standards by thousands of students unable to pass the HSPA, including many of the state's English Language Learner ("ELL") graduates. For students with limited English proficiency, being forced to take the PARCC test is not only particularly unfair and difficult, but it also has potentially impact their academic outlook; and

WHEREAS, seniors who do not pass the PARCC Assessments must now access the NJDOE's other "options" in order to graduate in June, requiring districts to devote valuable staff time and resources to help students meet these new requirements through even more tests and a time-consuming new graduation appeals process; and

WHEREAS, some of the "options" authorized by the NJDOE for class of 2016 seniors who did not pass the PARCC Assessments include the Scholastic Aptitude Test ("SAT") and the American College Test ("ACT"), which tests require fees, thereby denying equal access to public school students throughout New Jersey; and

WHEREAS, all of the NJDOE's designated "substitute assessments" are "English only" tests that do not provide appropriate accommodation for ELL students; and

WHEREAS, the NJDOE and the State Board of Education ("SBOE") have not yet legally adopted the regulations required to implement the proposed new graduation policies, and none of the additional "options" proposed by the NJDOE as alternative ways to satisfy the new graduation requirements are authorized by the current assessment regulations; and

WHEREAS, legal issues arising from the NJDOE's graduation proposals have led to a court challenge by parents represented by Education Law Center and the American Civil Liberties Union of NJ ("ACLU-NJ"); and

WHEREAS, these policies have neither firm legal footing nor the public understanding, support, and awareness needed for such a dramatic shift in high school graduation standards; and

WHEREAS, beginning with the class of 2020, the NJDOE has further proposed additional regulations that would **deny parents the right to opt their children out of PARCC Assessments, making it impossible for students who opted out of the PARCC Assessments to graduate high school**; and

WHEREAS, NJDOE is proposing to eliminate all other testing options besides PARCC as ways to satisfy state graduation requirements; and

WHEREAS, the use of PARCC assessments or any Value-Added Model (VAM) for assessment purposes of children, schools, and teachers has not been shown to be a reliable method;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Camden that it hereby:

1. Urges the NJDOE to implement the recommendation of the Governor's College and Career Ready Task Force, including a multi-year transition to a new assessment system that does not establish a minimum passing score as a graduation requirement on the new PARCC Assessments; and

2. Urges the legislature and the SBOE to take the necessary steps to implement this recommendation and allow students to graduate during this multi-year transition period on the basis of credits earned, grade point averages, and successful completion of all attendance, service, and other local graduation requirements; and

3. Urges that this multi-year transition to a new assessment system be used to conduct a broad public dialogue among all stakeholders to develop a new consensus around the transparent and equitable assessment policies all our students deserve; and

4. Urges that the State continues to provide multiple pathways to a high school diploma that include alternatives not based on standardized tests, and **that it continues to respect the right of parents to make decisions about the assessment alternatives that are most appropriate for their children, including opting out of such assessment testing**; and

5. Urges the state NJDOE to examine and implement an appropriate provision whereby:

    a. any student with limited English proficiency who has been attending a District, Charter, or Renaissance school for less than two years would be exempt from taking the English Language Arts/Literacy section of the PARCC Assessment Test. Students should not be denied a state-endorsed diploma for not completing the PARCC Assessment Testing.

    b. District, Charter and Renaissance schools would be prohibited from administering a PARCC Assessment Test to a student who has been classified for special education programs and services pursuant to pertinent State law and regulations.

6. Urges that the legislature review/hold hearings on the impact of the NJDOE's proposed graduation rules on future to-be-graduated classes; and

BE IT FURTHER RESOLVED, that a copy of this resolution be sent to Governor Chris Christie; Commissioner David Hespe; Senate President Stephen Sweeney; Senate Education Committee Chair M. Teresa Ruiz; Assembly Education Committee Chair Patrick J. Diegnan, Jr.; the all City of Camden's representatives in the State Legislature; Camden School District Superintendent Paymon Rouhanifard; Mayor Dana L. Redd; and .

BE IT FURTHER RESOLVED, that pursuant to N.J.S.A. 52:27BBB-23, a true copy of this Resolution shall be forwarded to the State Commissioner of Community Affairs, who shall have ten (10) days from the receipt thereof to veto this Resolution. All notices of veto shall be filed in the Office of the Municipal Clerk.

MEMORANDUM

To: Frank Moran and Curtis Jenkins
From: Angel Fuentes
Date: May 31, 2016

RE: Ordinance to opt out of PARCC Assessment throughout Camden Public Schools, Charter Schools and Renaissance Schools; that requested parents have a chance to "opt-out" of the standards.

Washington Township's public school district "opted out" of the PARCC Assessment; however, Camden School District is under State watch and 90% of the budget comes from the state, if we can't get the city-wide "Opt-Out, then, we will push for those with disabilities and limited English proficiency.

For students with limited English proficiency, being forced to take the PARCC exam is not only particularly unfair and difficult, but it also has the potential to negatively impact their academic outlook. Putting students who already have a great deal of challenges to overcome in school through hours of testing simply will cause stress to these children without delivering useful results. The Common Core is a set of objectives of where we should be focusing our instruction. That is what we dealt with today. That doesn't say anything about PARCC or the teacher evaluation systems.

Under the Ordinance, any student with limited English proficiency who has been attending school in Camden City for less than two years would be exempt from taking the English Language Arts/Literacy section of the PARCC exam. Students could not be denied a state-endorsed diploma for not completing the assessment.

Students known to have trouble with learning and processing information in English will gain nothing from this test but sleepless nights and an assault on their self-esteem. Prohibiting the administration of this test to students with limited English proficiency will help ensure that the PARCC exam serves its purpose of reasonably assessing what students should know, not irrationally punishing students for what they cannot understand.

A school district shall not administer a PARCC assessment to a student who has been classified as eligible for special education programs and services pursuant to chapter 46 of Title 18A of the New Jersey Statutes, or to a student with limited English proficiency.

This Ordinance would place restrictions on the administration of the assessments developed by the consortium of states known as the Partnership for Assessment of Readiness for College and Careers (PARCC assessments) to certain students. Under the Ordinance, a school district, Charter and Renaissance may not administer a PARCC assessment to special education students or to students with limited English proficiency.

Certainly we have discussed PARCC on the local, county, state and federal level, and how the state and federal can re-evaluate its place in the schools.

- Particularly, I want to take a look at how we assess students with disabilities, and ESL students in relation to PARCC.
- We don't want to penalize teachers who are working within diverse learning conditions.
- Often our best teachers are given the hardest caseload, and that could reflect negatively against them in the current system.
- We need to incentivize these teachers for taking extra time and care with our students, not punish them for it.

TITLE OF RESOLUTION/ORDINANCE: Resolution Authorizing the Execution of Discharge of Mortgage Respecting 460 Trenton Ave

BRIEF DESCRIPTION:

Procurement Process: Bid#, RFP#, State Contract#, Non-Fair & Open, EUS:

The Camden Redevelopment Agency ("CRA") owns 460 Trenton Ave (the "Property"). The CRA desires to sell the Property to St. Joseph's Carpenter Society to be rehabilitated. FOR VALUE RECEIVED, the CAMDEN REDEVELOPMENT AGENCY, 520 Market Street, Suite 1300, Camden, New Jersey 08101 (the "Borrower"), promises to pay to the order of the TAX LIEN FINANCING CORPORATION, c/o Office of the State Treasurer, State House, 125 West State Street, P.O. Box 002, Trenton, New Jersey 08625 ("Lender"), (i) the sum of $7,737.47, which represents the outstanding value of the Priority Tax Lien, as defined in the Purchase and Sale Agreement, dated January 17, 2006, (the "Original Agreement"), as amended by First Amendment to the Original Agreement (undated) and Second Amendment to the Original Agreement dated November 4, 2009, by and between the Borrower and the Lender, (collectively the "Agreement"), with interest on outstanding principal balances at the per annum rate of one and one-half percent (1.50%) or (ii) such lesser amount as calculated pursuant to this Note (the "Loan").

All applicable interest rates hereunder shall be calculated on the basis of a 360 day year for the actual number of days elapsed with interest commencing to accrue as of the date of this Note.

Borrower promises to repay the Loan to Lender as follows:

All principal and interest shall be due and payable upon sale, transfer or disposition of the real property known as 460 Trenton Avenue, Camden, N.J.; Block 1429, Lot 29, of the Camden, NJ Tax Map ("Premises") pledged as collateral hereunder and no payment shall be due under the Note prior to the sale, transfer or disposition of the Premises. All payments of principal and interest made under the Note shall be applied to the payment of principal and interest then due and shall be distributed as follows: (i) 100.00% of the payment shall be directed to and retained by Lender and (ii) 0.00% of the payment shall be directed to and retained by the Camden County Municipal Utilities Authority. The foregoing percentages represent the percentage of the Priority Tax Lien that is owned respectively by Lender and the Camden County Municipal Utilities Authority.

Notwithstanding any other provision of this Note or the Agreement to the contrary, the amount of principal and interest due under this Note shall not exceed and shall be limited to the Net Proceeds to be received by the Borrower upon the sale, transfer or other disposition of the Premises to a bona fide purchaser as approved by Lender pursuant to this paragraph. For the purposes of this provision "Net Proceeds" shall mean the total amount of consideration to be received by Borrower for the sale, transfer or disposition of the Premises less Borrower's closing costs to complete the sale, transfer or disposition of the Premises and less further the amount of any capital expenditures and/or repairs and/ or carrying costs paid for or incurred by Borrower for the Premises on or after the date of this Note. If Borrower receives an offer to purchase the Premises which offer would result in Net Proceeds that would be less than the amount that would be otherwise due under subparagraph (i) of the first paragraph of this Note, the Borrower shall provide notice of such offer to the Lender for review and approval. Written approval or denial of approval of the offer shall be made by Lender within fifteen (15) calendar days of Lender's receipt of the offer, which period may be extended by the Lender for an additional fifteen (15)

Lender may only deny approval based on the grounds that the offer is for an amount that is less than the then current fair market value of the Premises. In the event the Lender does not provide approval or deny approval within the applicable timeframe set forth above, the failure to approve or deny within the required timeframe shall be deemed an approval by the Lender of the proposed sale, transfer or disposition of the Premises.

As collateral security for the payment of this Note, Borrower has delivered unto Lender, inter alia, a first priority Mortgage of even date herewith, covering the Premises in the City of Camden, County of Camden, New Jersey, which said Mortgage is intended to be forthwith recorded.

Upon failure to pay this Note when due full power and authority are hereby given to Lender to apply any balance then standing to the credit of any accounts maintained with Lender by Borrower, and to sell, assign, transfer, and deliver the whole of the collateral security or any part thereof, or any substitute therefor or addition thereto, or any other property or securities of Borrower then in possession of Lender, at public or private sale, at such price or prices, and upon such terms and conditions as Lender in its sole and absolute discretion may determine, without demand, advertisement or notice of any kind, all of which are hereby expressly waived, and to apply the proceeds remaining, after deducting all costs of sale, in payment or reduction of the amount due thereon, and Borrower shall remain liable for any deficiency. Borrower agrees to pay any deficiency remaining hereunder after such application, and any excess proceeds, after first fully satisfying the within obligation and any other then due obligation for liabilities of Borrower to Lender, shall be paid over by Lender to Borrower. At any such sale, Lender may purchase any or all of the collateral so sold, free from any right of redemption in Borrower, which right of redemption is hereby expressly waived, and may apply the amount due hereon on account of or in full satisfaction of the purchase price.

Lender shall not by any act of omission or commission (except as set forth in this Note) be deemed to waive any of its rights or remedies hereunder until such waiver be in writing and signed by Lender and then only to the extent specifically set forth therein; a waiver on one event shall not be construed as continuing or as a bar to or waiver of such right or remedy on a subsequent event.

Lender may transfer this Note and may deliver the said collateral or the remainder thereof or any additions thereto or substitution therefor to the transferee, who shall thereupon become vested with all the powers and rights above given to Lender in respect to such collateral and shall have no further claim or right thereto.

The liability of Borrower shall be absolute and unconditional and without regard to the liability of any other party hereto.

MORTGAGE, SECURITY AGREEMENT AND FIXTURE FILING

This Mortgage Security Agreement and Fixture Filing (this "Mortgage") is made this 27th day of October, 2014, between the **Camden Redevelopment Agency a/k/a The City of Camden Redevelopment Agency**, 520 Market Street, Suite 1300, Camden, New Jersey 08101 ("Mortgagor") and the **City of Camden,** City Hall, 520 Market Street, Suite 201, Camden, New Jersey 08101 ("Mortgagee").

This Mortgage secures the same debt that was secured by a mortgage from Mortgagor to the Tax Lien Financing Corporation ("TLFC"), dated May 23, 2011 and recorded June 17, 2011 at Book 9426, Page 1550 ("Prior Mortgage"). Both this Mortgage and the Prior Mortgage secure the note executed by Mortgagor in favor of TLFC ("Note") wherein Mortgagor promised to pay to TLFC (i) the principal sum of Seven Thousand Seven Hundred Thirty-Seven Dollars and Forty-Seven Cents ($7,737.47) lawful money of the United States of America, with interest thereon, at the rate and times, in the manner and according to the terms and conditions specified in the Note, representing the value of the Priority Tax Lien (including any and all amounts due to the Camden County Municipal Utilities Authority thereunder), (ii) or such lesser amount as calculated pursuant to the terms of the Note, all of which are incorporated herein by reference, such loan transaction being referred to herein as the "Loan".

The Prior Mortgage was intended to be recorded after the recording of the deed transferring the applicable parcel, identified below, to the Mortgagor, but was inadvertently recorded prior to the recording of such deed. The original of the Prior Mortgage cannot be located for re-recording. Therefore, the parties are executing and recording this Mortgage to ensure that a mortgage is recorded subsequent to the recording of the deed which transferred the applicable parcel to the Mortgagor.

In the interim between the date of the Prior Mortgage and this Mortgage, TLFC assigned all of its right, title and interest in and to its duties and obligations under the Note and Prior Mortgage to Mortgagee via an Assignment, Assumption and Modification Agreement dated June 30, 2011. Therefore, the City of Camden is properly identified in this Mortgage as the Mortgagee.

NOW, THEREFORE, in consideration of the indebtedness, and as security for payment to Mortgagee of the sums provided for in the Note and in this Mortgage, according to their respective terms and conditions and for performance of the agreements, conditions, covenants, provisions and stipulations contained herein, Mortgagor does hereby grant, convey, assign and mortgage unto Mortgagee all of its interest in all **that certain parcel of real estate situate in the City of Camden, County of Camden and State of New Jersey (the "State"), commonly known as 460 Trenton Avenue, identified on the City of Camden Tax Map as Block 1429, Lot 29 and more particularly described in Exhibit "A" attached hereto and made a part hereof (the "Land"),**

Explanation of Change Order Items:

Item No.	Description
1	Silt fence was not required.
2	Payment was made for the actual number of inlet filters used.
3	An additional five construction signs were necessary for the detour when the roadway was closed.
4	Breakaway barricades were not used.
5	Traffic Cones were not used
6	Drums were not used.
7	Traffic directors were paid at the actual number of hours used. The roadway was closed and that eliminated the need for the traffic directors.
16	Payment for the concrete sidewalk was based upon actual measurements
17	Payment for the concrete curb was based upon actual measurements
18	Payment for concrete driveways was based upon actual measurements
21	Payment for Traffic Stripes was based upon actual measurements
23	Payment for Reset Castings was based upon the actual quantity reset.
26	The Type B Inlet (doghouse) was eliminated by the redesign of the storm drain system.
37	This item corrects a typo in Change Order #2 where this item was incorrectly deleted.
47	The 4" underdrain quantity in the bid was insufficient to install it behind the full length of the retaining wall. Payment for this item is based upon actual measurements.
52	Railroad Insurance was not required by Conrail as no work was done on their property.
53	Payment for Orange Fence was based upon actual measurements
54	The Asphalt and Fuel Price adjustments are calculated based upon the NJDOT requirements.
S-18	As constructed, the northern end of the retaining wall was too low to allow the guide rail to be attached at the NJDOT mandated height. A modification was made to this end by pouring a concrete section above the wall which enabled the guide rail to be installed at the proper height.

Edward Byrne Memorial Justice Assistance Grant (JAG) Program: FY 2016 Local Solicitation (CFDA #16.738)

A. Program Description

Overview
The Edward Byrne Memorial Justice Assistance Grant (JAG) Program (42 U.S.C. § 3751(a)) is the primary provider of federal criminal justice funding to state and local jurisdictions. The JAG Program provides states and units of local governments with critical funding necessary to support a range of program areas including law enforcement; prosecution and court programs; prevention and education programs; corrections and community corrections; drug treatment and enforcement; crime victim and witness initiatives; and planning, evaluation, and technology improvement programs.

Program-Specific Information
JAG funds may be used for state and local initiatives, technical assistance, strategic planning, research and evaluation (including forensics), data collection, training, personnel, equipment, forensic laboratories, supplies, contractual support, and criminal justice information systems that will improve or enhance such areas as:

- Law enforcement programs.
- Prosecution and court programs, including indigent defense.
- Prevention and education programs.
- Corrections, community corrections and reentry programs.
- Drug treatment and enforcement programs.
- Planning, evaluation, and technology improvement programs.
- Crime victim and witness programs (other than compensation).

Additionally, BJA reminds applicants that the JAG program allows funding for broadband deployment and adoption activities as they relate to criminal justice activities.

JAG Priority Areas
BJA recognizes that there are significant pressures on state and local criminal justice systems. In these challenging times, shared priorities and leveraged resources can make a significant impact. In light of this, it is important to make State Administering Agencies (SAAs) and local JAG recipients aware of several areas of priority that may be of help in maximizing the effectiveness of JAG funding at the state and local level. The following priorities represent key areas where BJA will be focusing nationally and encourages each state and local JAG recipient to join us in addressing these challenges as a part of our JAG partnership:

Reducing Gun Violence
Gun violence has touched nearly every state, local, and tribal government in America. BJA continues to encourage states and localities to invest valuable JAG funds in programs to combat gun violence, enforce existing firearms laws, and improve the process for ensuring that persons prohibited from purchasing or owning guns are prevented from doing so by enhancing reporting to the FBI's National Instant Criminal Background Check System (NICS).

While our nation has made great strides in reducing violent crime, some municipalities and regions continue to experience unacceptable levels of violent crime at rates far in excess of the national average. In 2014, as part of BJA's longstanding commitment to support effective strategies to reduce violent crime, BJA launched the Violence Reduction Network (VRN). By the end of FY 2016, 10 VRN sites, working with a broad network of federal, state, and local partners, will be implementing data-driven evidence-based strategies to reduce deeply entrenched violent crime in their communities. States and localities can support VRN sites by investing JAG funds in technology, crime analysis, training, and community-based crime reduction programs in VRN communities. For information on VRN, see www.bja.gov/Programs/VRN.html.

Body-Worn Cameras, Storage, and Policies

Law enforcement agencies across the country are equipping their officers with body-worn cameras (BWCs) to increase transparency and build community trust. The important benefits of BWCs, and the challenges in implementing BWC programs, are highlighted in several recent publications: see the Office of Justice Programs' Diagnostic Center report *Police Officer Body-Worn Cameras: Assessing the Evidence*, and the COPS Office and Police Executive Research Forum paper, *Implementing A Body-Worn Camera Program: Recommendations and Lessons Learned*.

JAG funding is an important potential source of funding for law enforcement agencies implementing new BWC programs or enhancing existing programs. JAG funds may be used to purchase BWCs and for costs associated with the BWC program, such as storage and policy development. Similarly, SAAs are encouraged to use either their Variable Pass-Through (VPT) or their "less than $10,000" funding that is added into the state award to set aside funds to assist small departments in implementing BWC programs. Grantees who wish to use JAG funds to purchase BWC equipment, or to implement or enhance BWC programs, must certify that they or the law enforcement agency receiving the BWC funding have policies and procedures in place related to equipment usage, data storage, privacy, victims, access, disclosure, training, etc. A copy of the required BWC certification can be found at www.bja.gov/Funding/BodyWornCameraCert.pdf.

The BJA BWC Toolkit provides model BWC policies, resources, and best practices to assist departments in implementing BWC programs.

National Incident-Based Reporting System (NIBRS)

The FBI has formally announced its intentions to establish NIBRS as the law enforcement (LE) crime data reporting standard for the nation. The transition to NIBRS will provide a more complete and accurate picture of crime at the national, state, and local level. Once this transition is complete, the FBI will no longer collect summary data and will only accept data in the NIBRS format and JAG awards will be based on submitted NIBRS data. Transitioning all law enforcement agencies to NIBRS is the first step in gathering more comprehensive crime data. State and local JAG grantees are encouraged to use JAG funds to expedite the transition to NIBRS in their jurisdictions.

Justice System Reform and Reentry

There is growing bipartisan support for Justice Systems Reform and Reentry. A promising approach to justice systems reform is the Justice Reinvestment Initiative (JRI), a public-private partnership between BJA and the PEW Public Safety Performance Project. Currently, 30 states have used the justice reinvestment process to control spiraling incarceration costs and reinvest

in evidence-based criminal justice programs and strategies. Strategic investments of JAG funds to implement JRI legislation and policy changes in JRI states can augment federal funds and achieve greater cost savings and reinvestments in programs to promote public safety. For state-by-state information on JRI, please visit the JRI Sites web page.

Over the past seven years, DOJ has partnered with state, local, and tribal agencies and national organizations to support hundreds of reentry programs across the country to provide job training, healthcare, housing, treatment, and other services to individuals returning to our communities from prisons and jails. The demand for effective reentry services remains high. More than 600,000 men and women leave our prisons every year and more than 11 million people cycle through our jails. Investments of JAG funds to support reentry efforts at the state and local level will pay dividends for returning citizens and for public safety in America. A summary of research-based reentry strategies is available on the National Reentry Resource Center's What Works in Reentry Clearinghouse along with a map identifying federally funded Second Chance Act Reentry programs at the state and local level.
(See https://csgjusticecenter.org/nrrc).

Public Defense
Another key priority area is support for improving public defense delivery systems. To support this priority in November 2015, BJA established the Right to Counsel National Consortium (www.rtcnationalcampaign.org) to spearhead a national conversation on how to ensure the Sixth Amendment Right to Counsel for every individual. BJA continues to encourage states and SAAs to use JAG funds to ensure that no person faces the loss of liberty without first having the aid of a lawyer with the time, ability, and resources to present an effective defense. Currently, across the nation public defense reform is being supported by governors, state legislators, chief judges and local communities. Research shows that early appointment of counsel can decrease jail and prison stays and produce better outcomes for defendants and communities. Many of these successes are guided by the American Bar Association's Ten Principles of a Public Defense Delivery System, which are recommendations for government officials and other parties who are charged with improving public defense delivery systems (http://www.americanbar.org/content/dam/aba/administrative/legal_aid_indigent_defendants/ls_sclaid_def_tenprinciplesbooklet.authcheckdam.pdf).

Improving Mental Health Services
Many people with mental illness enter the criminal justice system without a diagnosis or with untreated mental illness. Screening and assessment is critical to identify and provide appropriate referrals to treatment. This is an issue that impacts numerous facets of the criminal justice system. BJA encourages states to utilize JAG funding in support of programs and policy changes aimed at identifying and treating people with severe mental illness to divert when appropriate, treat during incarceration, and engage in appropriate pre-release planning for the provision of community treatment (see JMHCP Resources). BJA provides training and technical assistance (TTA) to grantees and non-grantees (states, jurisdictions) to increase enrollment in health care plans (increase linkages to health care providers) that can increase access to treatment for improved mental health outcomes. Information can be found at www.bjatraining.org.

DOJ Universal Accreditation w/Forensic Service Providers
In 2015, the National Commission on Forensic Science (NCFS) announced recommendations on strengthening the field of forensic science. There are a number of key principles, which include promoting universal accreditation and finding ways to improve upon medical-legal

investigative processes. For additional information on these recommendations, please review the New Accreditation Policies to Advance Forensic Science. The JAG program provides broad-based support to states and local jurisdictions across the nation in order to strengthen our criminal justice system, including the forensic sciences. As such, BJA encourages investments of JAG funds for programs and activities related to forensic work, including accreditation of forensic labs.

Goals, Objectives, and Deliverables
The Chief Executive Officer (CEO) of an eligible unit of local government or other officer designated by the CEO must submit the application for JAG funds. A unit of local government receiving a JAG award will be responsible for the administration of the funds including: distributing the funds; monitoring the award; submitting quarterly financial status (SF-425), performance metrics reports, and semi-annual programmatic reports; and providing ongoing oversight and assistance to any subrecipients of the funds.

Evidence-Based Programs or Practices
OJP strongly emphasizes the use of data and evidence in policy making, program development, and program implementation in criminal justice, juvenile justice, and crime victim services. OJP is committed to:

- Improving the quantity and quality of evidence OJP generates
- Integrating evidence into program, practice, and policy decisions within OJP and the field
- Improving the translation of evidence into practice

OJP considers programs and practices to be evidence-based when their effectiveness has been demonstrated by causal evidence, generally obtained through one or more outcome evaluations. Causal evidence documents a relationship between an activity or intervention (including technology) and its intended outcome, including measuring the direction and size of a change, and the extent to which a change may be attributed to the activity or intervention. Causal evidence depends on the use of scientific methods to rule out, to the extent possible, alternative explanations for the documented change. The strength of causal evidence, based on the factors described above, will influence the degree to which OJP considers a program or practice to be evidence-based. The OJP CrimeSolutions.gov website is one resource that applicants may use to find information about evidence-based programs in criminal justice, juvenile justice, and crime victim services.

1. A useful matrix of evidence-based policing programs and strategies is available through the Center for Evidence-Based Crime Policy at George Mason University. BJA offers a number of program models designed to effectively implement promising and evidence-based strategies through the BJA "Smart Suite" of programs including Smart Policing, Smart Supervision, Smart Pretrial, Smart Defense, Smart Prosecution, Smart Reentry and others (see https://www.bja.gov/programs/crppe/smartsuite.htm). BJA encourages states to use JAG funds to support these "smart on crime" strategies, including effective partnerships with universities and research partners and with non-traditional criminal justice partners.

BJA Success Stories
The BJA Success Story web page was designed to identify and highlight projects that have demonstrated success or shown promise in reducing crime and positively impacting communities. This web page will be a valuable resource for states, localities, territories, tribes,

and criminal justice professionals who seek to identify and learn about JAG and other successful BJA-funded projects linked to innovation, crime reduction, and evidence-based practices. **BJA strongly encourages the recipient to submit annual (or more frequent) success stories.**

If you have a Success Story you would like to submit, sign in to your My BJA account to access the Success Story Submission form. If you do not have a My BJA account, please register. Once you register, one of the available areas on your *My BJA* page will be *"My Success Stories."* Within this box, you will see an option to add a Success Story. Once reviewed and approved by BJA, all success stories will appear on the BJA Success Story web page.

B. Federal Award Information

BJA estimates that it will make up to 1,161 local awards totaling an estimated $86.4 million.

Awards of at least $25,000 are four years in length, and award periods will be from October 1, 2015 through September 30, 2019. Extensions beyond this period may be made on a case-by-case basis at the discretion of BJA and must be requested via GMS no less than 30 days prior to the grant end date.

Awards of less than $25,000 are two years in length, and award periods will be from October 1, 2015 through September 30, 2017. Extensions of up to two years can be requested for these awards via GMS no less than 30 days prior to the grant end date, and will be automatically granted upon request.

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law.

Eligible allocations under JAG are posted annually on BJA's JAG web page: www.bja.gov/ProgramDetails.aspx?Program_ID=59.

Type of Award[1]
BJA expects that it will make any award from this solicitation in the form of a grant.

JAG awards are based on a statutory formula as described below:
Once each fiscal year's overall JAG Program funding level is determined, BJA partners with the Bureau of Justice Statistics (BJS) to begin a four-step grant award calculation process which consists of:

1. Computing an initial JAG allocation for each state and territory, based on their share of violent crime and population (weighted equally).

2. Reviewing the initial JAG allocation amount to determine if the state or territory allocation is less than the minimum ("de minimus") award amount defined in the JAG legislation (0.25 percent of the total). If this is the case, the state or territory is funded at the minimum level, and the funds required for this are deducted from the overall pool of JAG

[1] *See generally* 31 U.S.C. §§ 6301-6305 (defines and describes various forms of federal assistance relationships, including grants and cooperative agreements [a type of grant]).

funds. Each of the remaining states receives the minimum award plus an additional amount based on their share of violent crime and population.

3. Dividing each state's final award amount (except for the territories and District of Columbia) between state and local governments at a rate of 60 and 40 percent, respectively.

4. Determining local unit of government award allocations, which are based on their proportion of the state's 3-year violent crime average. If a local eligible award amount is less than $10,000, the funds are returned to the state to be awarded to these local units of government through the state agency. If the eligible award amount is $10,000 or more, then the local government is eligible to apply for a JAG award directly from BJA.

Financial Management and System of Internal Controls
Award recipients and subrecipients (including any recipient or subrecipient funded in response to this solicitation that is a pass-through entity[2]) must, as described in the Part 200 Uniform Requirements set out at 2 C.F.R. 200.303:

(a) Establish and maintain effective internal control over the Federal award that provides reasonable assurance that the recipient (and any subrecipient) is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in "Standards for Internal Control in the Federal Government" issued by the Comptroller General of the United States and the "Internal Control Integrated Framework," issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

(b) Comply with Federal statutes, regulations, and the terms and conditions of the Federal awards.

(c) Evaluate and monitor the recipient's (and any subrecipient's) compliance with statutes, regulations, and the terms and conditions of Federal awards.

(d) Take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings.

(e) Take reasonable measures to safeguard protected personally identifiable information and other information the Federal awarding agency or pass-through entity designates as sensitive or the recipient (or any subrecipient) considers sensitive consistent with applicable Federal, state, local, and tribal laws regarding privacy and obligations of confidentiality.

In order to better understand administrative requirements and cost principles, applicants are encouraged to enroll, at no charge, in the Department of Justice Grants Financial Management Online Training available here.

[2] For purposes of this solicitation (or program announcement), "pass-through entity" includes any entity eligible to receive funding as a recipient or subrecipient under this solicitation (or program announcement) that, if funded, may make a subaward(s) to a subrecipient(s) to carry out part of the funded program.

Budget Information

Administrative Funds – Grant recipients may use up to 10 percent of the JAG award, including up to 10 percent of any earned interest, for costs associated with administering funds. Administrative funds (when utilized) must be tracked separately and recipients must report on SF-425s those expenditures that specifically relate to each grant number and established grant period. Additionally, recipients and subrecipients are prohibited from commingling funds on a program-by-program or project-by-project basis. More specifically, administrative funds under JAG are utilized for the same purpose each year (i.e., the administration of JAG funding) and therefore not considered separate programs/projects (commingling is not occurring) when utilized across all active JAG awards.

Disparate Certification – A disparate allocation occurs when a city or municipality is allocated one-and-one-half times (150 percent) more than the county, while the county bears more than 50 percent of the costs associated with prosecution or incarceration of the municipality's Part 1 violent crimes. A disparate allocation also occurs when multiple cities or municipalities are collectively allocated four times (400 percent) more than the county, and the county bears more than 50 percent of the collective costs associated with prosecution or incarceration of each municipality's Part 1 violent crimes.

Jurisdictions certified as disparate must identify a fiscal agent that will submit a joint application for the aggregate eligible allocation to all disparate municipalities. The joint application must determine and specify the award distribution to each unit of local government and the purposes for which the funds will be used. When beginning the JAG application process, a Memorandum of Understanding (MOU) that identifies which jurisdiction will serve as the applicant/fiscal agent for joint funds must be completed and signed by the Authorized Representative for each participating jurisdiction. The signed MOU should be attached to the application. For a sample MOU, go to www.bja.gov/Funding/JAGMOU.pdf.

Supplanting – Supplanting is prohibited under JAG. Applicants cannot replace or supplant non-federal funds that have been appropriated for the same purpose. See the JAG FAQs on BJA's JAG web page for examples of supplanting.

Leveraging of Grant Funds – Although supplanting is prohibited, the leveraging of federal funding is encouraged. For example, a city may utilize JAG and Homeland Security Grant Program (HSGP) money to fund different portions of a fusion center project. In instances where leveraging occurs, all federal grant funds must be tracked and reported separately and may not be used to fund the same line items. Additionally, federal funds cannot be used as match for other federal awards.

Trust Fund – Units of Local Government may draw down JAG funds in advance. To do so, a trust fund must be established in which to deposit the funds. The trust fund may or may not be an interest-bearing account. If subrecipients draw down JAG funds in advance, they also must establish a trust fund in which to deposit funds. This trust fund requirement does not apply to direct JAG award recipients or subrecipients that draw down on a reimbursement basis rather than in advance.

Prohibited and Controlled Uses – The JAG Prohibited and Controlled Expenditures Guidance represents a combination of BJA-controlled items and those controlled under the Executive Order on "Federal Support for Local Law Enforcement Equipment Acquisition" that was signed on January 16, 2015. The guidance contains:

1. Table of all prohibited expenditures (strictly unallowable expenditures under JAG).
2. Table of all controlled expenditures (expenditures which require prior written approval from BJA under JAG; including UAV guidance checklist).
3. Controlled Expenditures Justification Template (must be completed and submitted for any JAG controlled expenditures request to be considered for approval by BJA).
4. Overall Controlled Expenditure/Equipment Guidance (should be reviewed in conjunction with the template prior to controlled expenditures request(s) being submitted to BJA).
5. Standards for State, Local and Tribal Law Enforcement Agencies for the Acquisition of Controlled Equipment with Federal Resources.

Additional information on JAG controlled and prohibited expenditures, along with the process for requesting prior approval from BJA to expend funds on controlled items, can be found within the JAG FAQs.

Cost Sharing or Matching Requirement
This solicitation does not require a match. However, if a successful application proposes a voluntary match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

Pre-Agreement Cost (also known as Pre-award Cost) Approvals
Pre-agreement costs are costs incurred by the applicant prior to the start date of the period of performance of the grant award.

OJP does not typically approve pre-agreement costs; an applicant must request and obtain the prior written approval of OJP for all such costs. If approved, pre-agreement costs could be paid from grant funds consistent with a grantee's approved budget, and under applicable cost standards. However, all such costs prior to award and prior to approval of the costs are incurred at the sole risk of an applicant. Generally, no applicant should incur project costs before submitting an application requesting federal funding for those costs. Should there be extenuating circumstances that appear to be appropriate for OJP's consideration as pre-agreement costs, the applicant should contact the point of contact listed on the title page of this announcement for details on the requirements for submitting a written request for approval. See the section on Costs Requiring Prior Approval in the Financial Guide, for more information.

Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs
OJP strongly encourages applicants that propose to use award funds for any conference-, meeting-, or training-related activity to review carefully—before submitting an application—the OJP policy and guidance on conference approval, planning, and reporting available at www.ojp.gov/financialguide/DOJ/PostawardRequirements/chapter3.10a.htm. OJP policy and guidance (1) encourage minimization of conference, meeting, and training costs; (2) require prior written approval (which may affect project timelines) of most conference, meeting, and training costs for cooperative agreement recipients and of some conference, meeting, and training costs for grant recipients; and (3) set cost limits, including a general prohibition of all food and beverage costs.

Costs Associated with Language Assistance (if applicable)
If an applicant proposes a program or activity that would deliver services or benefits to individuals, the costs of taking reasonable steps to provide meaningful access to those services or benefits for individuals with limited English proficiency may be allowable. Reasonable steps to provide meaningful access to services or benefits may include interpretation or translation services where appropriate.

For additional information, see the "Civil Rights Compliance" section under "Solicitation Requirements" in OJP's Funding Resource Center.

Other JAG Requirements

Compliance with Applicable Federal Laws
Applicants for state and local JAG formula grants are required to certify compliance with all applicable federal laws at the time of application. In that regard, Members of Congress have asked the Department of Justice to examine whether jurisdictions with "sanctuary policies" (i.e., policies that either prevent law enforcement from releasing persons without lawful immigration status into federal custody for deportation, or that prevent state or local law enforcement from sharing certain information with Department of Homeland Security [DHS] officials), are in violation of 8 U.S.C. section 1373.

All applicants should understand that if OJP receives information that indicates that an applicant may be in violation of any applicable federal law, that applicant may be referred to the DOJ Office of Inspector General (OIG) for investigation; if the applicant is found to be in violation of an applicable federal law by the OIG, the applicant may be subject to criminal and civil penalties, in addition to relevant OJP programmatic penalties, including suspension or termination of funds, inclusion on the high risk list, repayment of funds, or suspension and debarment.

Law Enforcement Agency Training Information
Any law enforcement agency receiving direct or subawarded JAG funding must submit quarterly accountability metrics data related to training on use of force, racial and ethnic bias, de-escalation of conflict, and constructive engagement with the public that officers have received. **Any grantees that fail to submit this data will have their grant funds frozen.**

Accountability metrics reports must be submitted through BJA's PMT, available at www.bjaperformancetools.org. The accountability measures can be found at: http://www.bjaperformancetools.org/help/jagdocs.html.

Body-Worn Camera (BWC) purchases
Grantees who wish to use JAG funds to purchase BWC equipment, or to implement or enhance BWC programs, must certify that they or the law enforcement agency receiving the BWC funding have policies and procedures in place related to equipment usage, data storage, privacy, victims, access, disclosure, training, etc. A copy of the required BWC certification can be found at www.bja.gov/Funding/BodyWornCameraCert.pdf.

Any grantees that wish to use JAG funds for BWC-related expenses who do not have BWC policies and procedures in place will have funds withheld until a certification is submitted and approved by BJA.

The BJA BWC Toolkit provides model BWC policies, resources, and best practices to assist departments in implementing BWC programs.

Body Armor

Ballistic-resistant and stab-resistant body armor can be funded through two BJA-administered programs: the JAG Program and the Bulletproof Vest Partnership (BVP) Program. The BVP Program is designed to provide a critical resource to state and local law enforcement through the purchase of ballistic-resistant and stab-resistant body armor. A jurisdiction is able to request up to 50 percent of the cost of a vest with BVP funds. For more information on the BVP Program, including eligibility and application, refer to the BVP web page.

JAG funds may also be used to purchase vests for an agency, but they may not be used to pay for that portion of the ballistic-resistant vest (50 percent) that is not covered by BVP funds. Unlike BVP, JAG funds used to purchase vests do not require a 50 percent match. Vests purchased with JAG funds may be purchased at any threat level, make, or model from any distributor or manufacturer, as long as the vests have been tested and found to comply with the latest applicable National Institute of Justice (NIJ) ballistic or stab standards. In addition, vests purchased must be American-made. Information on the latest NIJ standards can be found at: www.nij.gov/topics/technology/body-armor/safety-initiative.htm.

As is the case in BVP, grantees who wish to purchase vests with JAG funds must certify that law enforcement agencies receiving vests have a written "mandatory wear" policy in effect. FAQs related to the mandatory wear policy and certifications can be found at www.bja.gov/Funding/JAGFAQ.pdf. This policy must be in place for at least all uniformed officers before any FY 2016 funding can be used by the agency for vests. There are no requirements regarding the nature of the policy other than it being a mandatory wear policy for all uniformed officers while on duty. The certification **must** be signed by the Authorized Representative and **must** be attached to the application. If the grantee proposes to change project activities to utilize JAG funds to purchase bulletproof vests after the application period (during the project period), the grantee must submit the signed certification to BJA at that time. A mandatory wear concept and issues paper and a model policy are available by contacting the BVP Customer Support Center vests@usdoj.gov or toll free at 1–877–758–3787.

A copy of the certification related to the mandatory wear can be found at: www.bja.gov/Funding/BodyArmorMandatoryWearCert.pdf.

DNA Testing of Evidentiary Materials and Upload of DNA Profiles to a Database

If JAG Program funds will be used for DNA testing of evidentiary materials, any resulting eligible DNA profiles must be uploaded to the Combined DNA Index System (CODIS, the national DNA database operated by the FBI) by a government DNA lab with access to CODIS. No profiles generated with JAG funding may be entered into any other non-governmental DNA database without prior express written approval from BJA. For more information, refer to the NIJ DNA Backlog Reduction Program, available at www.nij.gov/topics/forensics/lab-operations/evidence-backlogs/Pages/backlog-reduction-program.aspx.

In addition, funds may not be used for purchase of DNA equipment and supplies when the resulting DNA profiles from such technology are not accepted for entry into CODIS.

Interoperable Communications
Grantees (including subgrantees) that are using FY 2016 JAG Program funds to support emergency communications activities (including the purchase of interoperable communications equipment and technologies such as voice-over-internet protocol bridging or gateway devices, or equipment to support the build out of wireless broadband networks in the 700 MHz public safety band under the Federal Communications Commission (FCC) Waiver Order) should review *FY 2016 SAFECOM Guidance.* The SAFECOM Guidance is updated annually to provide current information on emergency communications policies, eligible costs, best practices, and technical standards for state, local, tribal, and territorial grantees investing federal funds in emergency communications projects. Additionally, emergency communications projects should support the Statewide Communication Interoperability Plan (SCIP) and be coordinated with the full-time Statewide Interoperability Coordinator (SWIC) in the state of the project. As the central coordination point for their state's interoperability effort, the SWIC plays a critical role, and can serve as a valuable resource. SWICs are responsible for the implementation of the SCIP through coordination and collaboration with the emergency response community. The U.S. Department of Homeland Security Office of Emergency Communications maintains a list of SWICs for each of the 56 states and territories. Contact OEC@hq.dhs.gov. All communications equipment purchased with grant award funding should be identified during quarterly performance metrics reporting.

In order to promote information sharing and enable interoperability among disparate systems across the justice and public safety community, OJP requires the grantee to comply with DOJ's Global Justice Information Sharing Initiative guidelines and recommendations for this particular grant. Grantee shall conform to the Global Standards Package (GSP) and all constituent elements, where applicable, as described at: www.it.ojp.gov/gsp_grantcondition. Grantees shall document planned approaches to information sharing and describe compliance to the GSP and appropriate privacy policy that protects shared information, or provide detailed justification for why an alternative approach is recommended.

C. Eligibility Information

For eligibility information, see the title page.

For additional information on cost sharing or matching requirements, see Section B. Federal Award Information.

Limit on Number of Application Submissions
If an applicant submits multiple versions of the same application, BJA will review only the most recent system-validated version submitted. For more information on system-validated versions, see How to Apply.

D. Application and Submission Information

What an Application Should Include
Applicants should anticipate that if they fail to submit an application that contains all of the specified elements, it may negatively affect the review of their application; and, should a decision be made to make an award, it may result in the inclusion of special conditions that

preclude the recipient from accessing or using award funds pending satisfaction of the conditions.

Applicants may combine the Budget Narrative and the Budget Detail Worksheet in one document. However, if an applicant submits only one budget document, it must contain **both** narrative and detail information. Please review the "Note on File Names and File Types" under How to Apply to be sure applications are submitted in permitted formats.

OJP strongly recommends that applicants use appropriately descriptive file names (e.g., "Program Narrative," "JAG Budget and Budget Narrative," "Timelines," "Memoranda of Understanding," "Résumés") for all attachments. Also, OJP recommends that applicants include résumés in a single file.

Failure to submit the required information will result in an application being returned in the Grants Management System (GMS) for inclusion of the missing information OR the attachment of a withholding of funds special condition at the time of award.

1. Information to Complete the Application for Federal Assistance (SF-424)

The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. GMS takes information from the applicant's profile to populate the fields on this form.

Intergovernmental Review: This funding opportunity is subject to Executive Order 12372. Applicants may find the names and addresses of their state's Single Point of Contact (SPOC) at the following website: www.whitehouse.gov/omb/grants_spoc/. Applicants whose state appears on the SPOC list must contact their state's SPOC to find out about, and comply with, the state's process under Executive Order 12372. In completing the SF-424, applicants whose state appears on the SPOC list are to make the appropriate selection in response to question 19 once the applicant has complied with their state's E.O. 12372 process. (Applicants whose state does not appear on the SPOC list are to make the appropriate selection in response to question 19 to indicate that the "Program is subject to E.O. 12372 but has not been selected by the State for review.")

2. Project Abstract

Applications should include a high-quality project abstract that summarizes the proposed project in 400 words or less. Project abstracts should be:

- Written for a general public audience and submitted as a separate attachment with "Project Abstract" as part of its file name.
- Single-spaced, using a standard 12-point font (Times New Roman) with 1-inch margins
- Include applicant name, title of the project, a brief description of the problem to be addressed and the targeted area/population, project goals and objectives, a description of the project strategy, any significant partnerships, and anticipated outcomes.
- Identify up to 5 project identifiers that would be associated with proposed project activities. The list of identifiers can be found at www.bja.gov/funding/JAGIdentifiers.pdf.

As a separate attachment, the project abstract will **not** count against the page limit for the program narrative.

3. Program Narrative

Applicants must submit a program narrative that generally describes the proposed program activities for the two or four year grant period. The narrative must outline the type of programs to be funded by the JAG award and provide a brief analysis of the need for the programs. Narratives must also identify anticipated coordination efforts involving JAG and related justice funds. Certified disparate jurisdictions submitting a joint application must specify the funding distribution to each disparate unit of local government and the purposes for which the funds will be used.

A plan for collecting the data required for this solicitation's performance measures should also be included. To demonstrate program progress and success, as well as to assist the Department with fulfilling its responsibilities under the Government Performance and Results Act of 1993 (GPRA), Public Law 103-62, and the GPRA Modernization Act of 2010, Public Law 111–352, applicants that receive funding under this solicitation must provide data that measure the results of their work done under this solicitation. **Quarterly accountability metrics reports must be submitted through BJA's PMT, available at www.bjaperformancetools.org. The accountability measures can be found at:** http://www.bjaperformancetools.org/help/jagdocs.html.

BJA does not require applicants to submit performance measures data with their application. Performance measures are included as an alert that BJA will require successful applicants to submit specific data as part of their reporting requirements. For the application, applicants should indicate an understanding of these requirements and discuss how they will gather the required data, should they receive funding.

Note on Project Evaluations

Applicants that propose to use funds awarded through this solicitation to conduct project evaluations should be aware that certain project evaluations (such as systematic investigations designed to develop or contribute to generalizable knowledge) may constitute "research" for purposes of applicable DOJ human subjects protection regulations. However, project evaluations that are intended only to generate internal improvements to a program or service, or are conducted only to meet OJP's performance measure data reporting requirements likely do not constitute "research." Applicants should provide sufficient information for OJP to determine whether the particular project they propose would either intentionally or unintentionally collect and/or use information in such a way that it meets the DOJ regulatory definition of research.

Research, for the purposes of human subjects protections for OJP-funded programs, is defined as, "a systematic investigation, including research development, testing, and evaluation, designed to develop or contribute to generalizable knowledge" 28 C.F.R. § 46.102(d). For additional information on determining whether a proposed activity would constitute research, see the decision tree to assist applicants on the "Research and the Protection of Human Subjects" section of the OJP's Funding Resource Center. Applicants whose proposals may involve a research or statistical component also should review the "Data Privacy and Confidentiality Requirements" section on that web page.

4. Budget Detail Worksheet and Budget Narrative

Applicants must submit a budget detail worksheet and budget narrative outlining how JAG funds, including administrative funds (up to 10% of the grant award) if applicable, will be used to

support and implement the program. Please note that if an applicant submits only one budget document, it must contain **both** narrative and detail information.

a. **Budget Detail Worksheet**
A sample Budget Detail Worksheet can be found at www.ojp.gov/funding/Apply/Resources/BudgetDetailWorksheet.pdf. Applicants that submit their budget in a different format should include the budget categories listed in the sample budget worksheet. The Budget Detail Worksheet should be broken down by year.

b. **Budget Narrative**
The budget narrative should thoroughly and clearly describe every category of expense listed in the Budget Detail Worksheet. OJP expects proposed budgets to be complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities). **This narrative should include a full description of all costs, including administrative costs (if applicable) and how funds will be allocated across the seven allowable JAG program areas** (law enforcement, prosecution, indigent defense, courts, crime prevention and education, corrections and community corrections, drug treatment and enforcement, planning, evaluation, technology improvement, and crime victim and witness initiatives).

Applicants should demonstrate in their budget narratives how they will maximize cost effectiveness of grant expenditures. Budget narratives should generally describe cost effectiveness in relation to potential alternatives and the goals of the project. For example, a budget narrative should detail why planned in-person meetings are necessary, or how technology and collaboration with outside organizations could be used to reduce costs, without compromising quality.

The narrative should be mathematically sound and correspond with the information and figures provided in the Budget Detail Worksheet. The narrative should explain how the applicant estimated and calculated all costs, and how they are relevant to the completion of the proposed project. The narrative may include tables for clarification purposes but need not be in a spreadsheet format. As with the Budget Detail Worksheet, the Budget Narrative should be broken down by year.

For questions pertaining to budget and examples of allowable and unallowable costs, see the DOJ Grants Financial Guide at www.ojp.gov/financialguide/index.htm.

c. **Non-Competitive Procurement Contracts In Excess of Simplified Acquisition Threshold**
If an applicant proposes to make one or more non-competitive procurements of products or services, where the non-competitive procurement will exceed the simplified acquisition threshold (also known as the small purchase threshold), which is currently set at $150,000, the application should address the considerations outlined in the Financial Guide.

d. **Pre-Agreement Costs**
For information on pre-agreement costs, see "Pre-Agreement Cost Approvals" under Section B. Federal Award Information.

5. **Indirect Cost Rate Agreement (if applicable)**
Indirect costs are allowed only under the following circumstances:
(a) The applicant has a current, federally approved indirect cost rate; or
(b) The applicant is eligible to use and elects to use the "de minimis" indirect cost rate described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.414(f).

Attach a copy of the federally approved indirect cost rate agreement to the application. Applicants that do not have an approved rate may request one through their cognizant federal agency, which will review all documentation and approve a rate for the applicant organization, or, if the applicant's accounting system permits, costs may be allocated in the direct cost categories. For the definition of Cognizant Federal Agency, see the "Glossary of Terms" in the Financial Guide. For assistance with identifying your cognizant agency, please contact the Customer Service Center at 1-800-458-0786 or at ask.ocfo@usdoj.gov. If DOJ is the cognizant federal agency, applicants may obtain information needed to submit an indirect cost rate proposal at www.ojp.gov/funding/Apply/Resources/IndirectCosts.pdf.

In order to use the "de minimis" indirect rate, attach written documentation to the application that advises OJP of both the applicant's eligibility (to use the "de minimis" rate) and its election. If the applicant elects the "de minimis" method, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. In addition, if this method is chosen then it must be used consistently for all federal awards until such time as you choose to negotiate a federally approved indirect cost rate.[3]

6. **Tribal Authorizing Resolution (if applicable)**
Tribes, tribal organizations, or third parties proposing to provide direct services or assistance to residents on tribal lands should include in their applications a resolution, a letter, affidavit, or other documentation, as appropriate, that certifies that the applicant has the legal authority from the tribe(s) to implement the proposed project on tribal lands. In those instances when an organization or consortium of tribes applies for a grant on behalf of a tribe or multiple specific tribes, the application should include appropriate legal documentation, as described above, from all tribes that would receive services or assistance under the grant. A consortium of tribes for which existing consortium bylaws allow action without support from all tribes in the consortium (i.e., without an authorizing resolution or comparable legal documentation from each tribal governing body) may submit, instead, a copy of its consortium bylaws with the application.

Applicants unable to submit an application that includes a fully-executed (i.e., signed) copy of appropriate legal documentation, as described above, consistent with the applicable tribe's governance structure, should, at a minimum, submit an unsigned, draft version of such legal documentation as part of its application (except for cases in which, with respect to a tribal consortium applicant, consortium bylaws allow action without the support of all consortium member tribes). If selected for funding, BJA will make use of and access to funds contingent on receipt of the fully-executed legal documentation.

7. **Applicant Disclosure of High Risk Status**
Applicants that are currently designated high risk by another federal grant making agency must disclose that status. This includes any status requiring additional oversight by the federal agency due to past programmatic or financial concerns. If an applicant is designated

[3] See 2 C.F.R. § 200.414(f).

high risk by another federal grant making agency, the applicant must email the following information to OJPComplianceReporting@usdoj.gov at the time of application submission:

- The federal agency that currently designated the applicant as high risk
- Date the applicant was designated high risk
- The high risk point of contact name, phone number, and email address, from that federal agency
- Reasons for the high risk status

OJP seeks this information to ensure appropriate federal oversight of any grant award. Disclosing this high risk information does not disqualify any organization from receiving an OJP award. However, additional grant oversight may be included, if necessary, in award documentation.

8. Additional Attachments

a. Review Narrative

Applicants **must** submit information documenting that the date the JAG application was made available for review by the governing body of the state, or to an organization designated by that governing body, was not less than 30 days before the application was submitted to BJA. If the 30 governing body requirement cannot be met before the application deadline, a withholding special condition will be placed on the award until the governing body requirement can be met. The attachment must also specify that an opportunity to comment was provided to citizens prior to application submission to the extent applicable law or established procedures make such opportunity available.

Below are notification language templates that can be utilized in completing this section of the application.

The (**provide name of State/Territory**) made its Fiscal Year 2015 JAG application available to the (**provide name of governing body**) for its review and comment on (**provide date**); or intends to do so on (**provide date**).

The (**provide name of State/Territory**) made its Fiscal Year 2015 JAG application available to citizens for comment prior to application submission by (**provide means of notification**); or the application has not yet been made available for public review/comment.

b. Memorandum of Understanding (if applicable)

Jurisdictions certified as disparate must identify a fiscal agent that will submit a joint application for the aggregate eligible allocation to all disparate municipalities. The joint application must determine and specify the award distribution to each unit of local government and the purposes for which the funds will be used. When beginning the JAG application process, a Memorandum of Understanding (MOU) that identifies which jurisdiction will serve as the applicant/fiscal agent for joint funds must be completed and signed by the Authorized Representative for each participating jurisdiction. The signed MOU must be attached to the application. For a sample MOU, go to www.bja.gov/Funding/JAGMOU.pdf.

c. Applicant Disclosure of Pending Applications

Applicants are to disclose whether they have pending applications for federally funded grants or subgrants (including cooperative agreements) that include requests for funding to support the same project being proposed under this solicitation and will cover the identical cost items outlined in the budget narrative and worksheet in the application under this solicitation. The disclosure should include both direct applications for federal funding (e.g., applications to federal agencies) and indirect applications for such funding (e.g., applications to state agencies that will subaward federal funds).

OJP seeks this information to help avoid any inappropriate duplication of funding. Leveraging multiple funding sources in a complementary manner to implement comprehensive programs or projects is encouraged and is not seen as inappropriate duplication.

Applicants that have pending applications as described above are to provide the following information about pending applications submitted within the last 12 months:

- The federal or state funding agency
- The solicitation name/project name
- The point of contact information at the applicable funding agency

Federal or State Funding Agency	Solicitation Name/Project Name	Name/Phone/Email for Point of Contact at Funding Agency
DOJ/COPS	COPS Hiring Program	Jane Doe, 202/000-0000; jane.doe@usdoj.gov
HHS/ Substance Abuse & Mental Health Services Administration	Drug Free Communities Mentoring Program/ North County Youth Mentoring Program	John Doe, 202/000-0000; john.doe@hhs.gov

SAMPLE

Applicants should include the table as a separate attachment to their application. The file should be named "Disclosure of Pending Applications."

Applicants that do not have pending applications as described above are to include a statement to this effect in the separate attachment page (e.g., "[Applicant Name on SF-424] does not have pending applications submitted within the last 12 months for federally funded grants or subgrants (including cooperative agreements) that include requests for funding to support the same project being proposed under this solicitation and will cover the identical cost items outlined in the budget narrative and worksheet in the application under this solicitation.").

d. Research and Evaluation Independence and Integrity

If a proposal involves research and/or evaluation, regardless of the proposal's other merits, in order to receive funds, the applicant must demonstrate research/evaluation independence, including appropriate safeguards to ensure research/evaluation objectivity and integrity, both in this proposal and as it may relate to the applicant's other current or prior related projects. This documentation may be included as an attachment to the application which addresses BOTH i. and ii. below.

i. For purposes of this solicitation, applicants must document research and evaluation independence and integrity by including, at a minimum, one of the following two items:

   a. A specific assurance that the applicant has reviewed its proposal to identify any research integrity issues (including all principal investigators and subrecipients) and it has concluded that the design, conduct, or reporting of research and evaluation funded by BJA grants, cooperative agreements, or contracts will not be biased by any personal or financial conflict of interest on the part of part of its staff, consultants, and/or subrecipients responsible for the research and evaluation or on the part of the applicant organization;

   OR

   b. A specific listing of actual or perceived conflicts of interest that the applicant has identified in relation to this proposal. These conflicts could be either personal (related to specific staff, consultants, and/or subrecipients) or organizational (related to the applicant or any subgrantee organization). Examples of potential investigator (or other personal) conflict situations may include, but are not limited to, those in which an investigator would be in a position to evaluate a spouse's work product (actual conflict), or an investigator would be in a position to evaluate the work of a former or current colleague (potential apparent conflict). With regard to potential organizational conflicts of interest, as one example, generally an organization could not be given a grant to evaluate a project if that organization had itself provided substantial prior technical assistance to that specific project or a location implementing the project (whether funded by OJP or other sources), as the organization in such an instance would appear to be evaluating the effectiveness of its own prior work. The key is whether a reasonable person understanding all of the facts would be able to have confidence that the results of any research or evaluation project are objective and reliable. Any outside personal or financial interest that casts doubt on that objectivity and reliability of an evaluation or research product is a problem and must be disclosed.

ii. In addition, for purposes of this solicitation applicants must address the issue of possible mitigation of research integrity concerns by including, at a minimum, one of the following two items:

   a. If an applicant reasonably believes that no potential personal or organizational conflicts of interest exist, then the applicant should provide a brief narrative explanation of how and why it reached that conclusion. Applicants MUST also include an explanation of the specific processes and

procedures that the applicant will put in place to identify and eliminate (or, at the very least, mitigate) potential personal or financial conflicts of interest on the part of its staff, consultants, and/or subrecipients for this particular project, should that be necessary during the grant period. Documentation that may be helpful in this regard could include organizational codes of ethics/conduct or policies regarding organizational, personal, and financial conflicts of interest.

OR

b. If the applicant has identified specific personal or organizational conflicts of interest in its proposal during this review, the applicant must propose a specific and robust mitigation plan to address conflicts noted above. At a minimum, the plan must include specific processes and procedures that the applicant will put in place to eliminate (or, at the very least, mitigate) potential personal or financial conflicts of interest on the part of its staff, consultants, and/or subrecipients for this particular project, should that be necessary during the grant period. Documentation that may be helpful in this regard could include organizational codes of ethics/conduct or policies regarding organizational, personal, and financial conflicts of interest. There is no guarantee that the plan, if any, will be accepted as proposed.

Considerations in assessing research and evaluation independence and integrity will include, but are not limited to, the adequacy of the applicant's efforts to identify factors that could affect the objectivity or integrity of the proposed staff and/or the organization in carrying out the research, development, or evaluation activity; and the adequacy of the applicant's existing or proposed remedies to control any such factors.

9. **Financial Management and System of Internal Controls Questionnaire**
   In accordance with the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.205, federal agencies must have in place a framework for evaluating the risks posed by applicants before they receive a federal award. To facilitate part of this risk evaluation, **all** applicants (other than an individual) are to download, complete, and submit this form.

10. **Disclosure of Lobbying Activities**
    Any applicant that expends any funds for lobbying activities is to provide the detailed information requested on the form, Disclosure of Lobbying Activities (SF-LLL).

How to Apply

Applicants must submit applications through the Grants Management System (GMS), which provides support for the application, award, and management of awards at OJP. Applicants **must register in GMS for each specific funding opportunity.** Although the registration and submission deadlines are the same, OJP urges applicants to **register immediately**, especially if this is their first time using the system. Find complete instructions on how to register and submit an application in GMS at www.ojp.gov/gmscbt/. Applicants that experience technical difficulties during this process should email GMS.HelpDesk@usdoj.gov or call 888-549-9901 (option 3), Monday–Friday from 6:00 a.m. to midnight, Eastern Time, except federal holidays. OJP recommends that applicants **register promptly** to prevent delays in submitting an application package by the deadline.

Note on File Types: GMS does not accept executable file types as application attachments. These disallowed file types include, but are not limited to, the following extensions: ".com," ".bat," ".exe," ".vbs," ".cfg," ".dat," ".db," ".dbf," ".dll," ".ini," ".log," ".ora," ".sys," and ".zip."

OJP may not make a federal award to an applicant organization until the applicant organization has complied with all applicable DUNS and SAM requirements. Individual applicants must comply with all Grants.gov requirements. If an applicant has not fully complied with the requirements by the time the federal awarding agency is ready to make a federal award, the federal awarding agency may determine that the applicant is not qualified to receive a federal award and use that determination as a basis for making a federal award to another applicant.

All applicants should complete the following steps:

1. **Acquire a Data Universal Numbering System (DUNS) number.** In general, the Office of Management and Budget (OMB) requires that all applicants (other than individuals) for federal funds include a DUNS number in their application for a new award or a supplement to an existing award. A DUNS number is a unique nine-digit sequence recognized as the universal standard for identifying and differentiating entities receiving Federal funds. The identifier is used for tracking purposes and to validate address and point of contact information for federal assistance applicants, recipients, and subrecipients. The DUNS number will be used throughout the grant life cycle. Obtaining a DUNS number is a free, one-time activity. Call Dun and Bradstreet at 866-705-5711 to obtain a DUNS number or apply online at www.dnb.com. A DUNS number is usually received within 1-2 business days.

2. **Acquire registration with the System for Award Management (SAM).** SAM is the repository for standard information about federal financial assistance applicants, recipients, and subrecipients. OJP requires that all applicants (other than individuals) for federal financial assistance maintain current registrations in the SAM database. Applicants must **update or renew their SAM registration annually** to maintain an active status. SAM registration and renewal can take as long as 10 business days to complete.

   Information about SAM registration procedures can be accessed at www.sam.gov.

3. **Acquire a GMS username and password**. New users must create a GMS profile by selecting the "First Time User" link under the sign-in box of the GMS home page. For more information on how to register in GMS, go to www.ojp.gov/gmscbt.

4. **Verify the SAM (formerly CCR) registration in GMS.** OJP requests that all applicants verify their SAM registration in GMS. Once logged into GMS, click the "CCR Claim" link on the left side of the default screen. Click the submit button to verify the SAM (formerly CCR) registration.

5. **Search for the funding opportunity on GMS.** After logging into GMS or completing the GMS profile for username and password, go to the "Funding Opportunities" link on the left side of the page. Select BJA and the **FY 16 Edward Byrne Memorial Local Justice Assistance Grant (JAG) Program.**

6. **Register by selecting the "Apply Online" button associated with the funding opportunity title.** The search results from step 5 will display the funding opportunity title

along with the registration and application deadlines for this funding opportunity. Select the "Apply Online" button in the "Action" column to register for this funding opportunity and create an application in the system.

7. **Follow the directions in GMS to submit an application consistent with this solicitation.** Once submitted, GMS will display a confirmation screen stating the submission was successful. **Important:** In some instances, applicants must wait for GMS approval before submitting an application. OJP urges applicants to submit the application **at least 72 hours prior** to the application due date.

Note: Duplicate Applications
If an applicant submits multiple versions of the same application, BJA will review only the most recent system-validated version submitted. See Note on "File Names and File Types" under How to Apply.

Experiencing Unforeseen GMS Technical Issues
Applicants that experience unforeseen GMS technical issues beyond their control that prevent them from submitting their application by the deadline must contact the GMS Help Desk or the SAM Help Desk (Federal Service Desk) to report the technical issue and receive a tracking number. Then the applicant must email the BJA contact identified in the Contact Information section on page 2 **within 24 hours after the application deadline** and request approval to submit their application. The email must describe the technical difficulties and include a timeline of the applicant's submission efforts, the complete grant application, the applicant's DUNS number, and any GMS Help Desk or SAM tracking number(s). **Note: BJA *does not* approve requests automatically.** After the program office reviews the submission, and contacts the GMS Help Desk to validate the reported technical issues, OJP will inform the applicant whether the request to submit a late application has been approved or denied. If OJP determines that the applicant failed to follow all required procedures, which resulted in an untimely application submission, OJP will deny the applicant's request to submit their application.

The following conditions are generally insufficient to justify late submissions:

- Failure to register in SAM or GMS in sufficient time (SAM registration and renewal can take as long as 10 business days to complete)
- Failure to follow GMS instructions on how to register and apply as posted on the GMS website
- Failure to follow each instruction in the OJP solicitation
- Technical issues with the applicant's computer or information technology environment, including firewalls, browser incompatibility, etc.

Notifications regarding known technical problems with GMS, if any, are posted at the top of the OJP funding web page at http://ojp.gov/funding/index.htm.

E. Application Review Information

Review Process

OJP is committed to ensuring a fair and open process for awarding grants. BJA reviews the application to make sure that the information presented is reasonable, understandable,

measurable, and achievable, as well as consistent with the solicitation. BJA will also review applications to ensure statutory requirements have been met.

OJP reviews applications for potential awards to evaluate the risks posed by applicants before they receive an award. This review may include but is not limited to the following:

1. Financial stability and fiscal integrity
2. Quality of management systems and ability to meet the management standards prescribed in the Financial Guide
3. History of performance
4. Reports and findings from audits
5. The applicant's ability to effectively implement statutory, regulatory, or other requirements imposed on award recipients

Absent explicit statutory authorization or written delegation of authority to the contrary, the Assistant Attorney General will make all final award decisions.

F. Federal Award Administration Information

Federal Award Notices
OJP sends award notification by email through GMS to the individuals listed in the application as the point of contact and the authorizing official. The email notification includes detailed instructions on how to access and view the award documents, and how to accept the award in GMS. GMS automatically issues the notifications at 9:00 p.m. eastern time on the award date (by September 30, 2016). Recipients will be required to login; accept any outstanding assurances and certifications on the award; designate a financial point of contact; and review, sign, and accept the award. The award acceptance process involves physical signature of the award document by the authorized representative and the scanning of the fully-executed award document to OJP.

Administrative, National Policy, and other Legal Requirements
If selected for funding, in addition to implementing the funded project consistent with the agency-approved project proposal and budget, the recipient must comply with award terms and conditions, and other legal requirements, including but not limited to OMB, DOJ, or other federal regulations which will be included in the award, incorporated into the award by reference, or are otherwise applicable to the award. OJP strongly encourages prospective applicants to review the information pertaining to these requirements **prior** to submitting an application. To assist applicants and recipients in accessing and reviewing this information, OJP has placed pertinent information on its Solicitation Requirements page of OJP's Funding Resource Center website.

Please note in particular the following two forms, which applicants must accept in GMS prior to the receipt of any award funds, as each details legal requirements with which applicants must provide specific assurances and certifications of compliance. Applicants may view these forms in the Apply section of OJP's Funding Resource Center and are strongly encouraged to review and consider them carefully prior to making an application for OJP grant funds.

- Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements

- Standard Assurances

Upon grant approval, OJP electronically transmits (via GMS) the award document to the prospective award recipient. In addition to other award information, the award document contains award terms and conditions that specify national policy requirements[4] with which recipients of federal funding must comply; uniform administrative requirements, cost principles, and audit requirements; and program-specific terms and conditions required based on applicable program (statutory) authority or requirements set forth in OJP solicitations and program announcements, and other requirements which may be attached to appropriated funding. For example, certain efforts may call for special requirements, terms, or conditions relating to intellectual property, data/information-sharing or -access, or information security; or audit requirements, expenditures and milestones; or publications and/or press releases. OJP also may place additional terms and conditions on an award based on its risk assessment of the applicant, or for other reasons it determines necessary to fulfill the goals and objectives of the program.

Prospective applicants may access and review the text of mandatory conditions OJP includes in all OJP awards, as well as the text of certain other conditions, such as administrative conditions, via OJP's Mandatory Award Terms and Conditions page of OJP's Funding Resource Center.

General Information about Post-Federal Award Reporting Requirements
Recipients must submit quarterly financial reports, semi-annual progress reports, final financial and progress reports, an annual audit report in accordance with the Part 200 Uniform Requirements, if applicable, and Federal Funding Accountability and Transparency Act (FFATA) reports through the FFATA Sub-award Reporting System (FSRS) as necessary. Future awards and fund drawdowns may be withheld if reports are delinquent.

Special Reporting requirements may be required by OJP depending on the statutory, legislative or administrative requirements of the recipient or the program.

Listed below are all jurisdictions in the state that are eligible for FY 2016 JAG funding, as determined by the JAG formula. For additional details regarding the JAG formula and award calculation process, with examples, please refer to the updated JAG Technical report here: http://www.bjs.gov/content/pub/pdf/jagp15.pdf and current JAG Frequently Asked Questions here: https://www.bja.gov/Funding/JAGFAQ.pdf
Finding your jurisdiction:
(1) Disparate jurisdictions are listed in shaded groups below, in alphabetic order by county.
(2) Eligible individual allocations are listed alphabetically below the shaded, disparate groupings.
(3) Counties that have an asterisk (*) under the "Eligible Individual Allocation" column did not submit the level of violent crime data to qualify for a direct award from BJA, but are in the disparate grouping indicated by the shaded area. The JAG legislation requires these counties to remain a partner with the local jurisdictions receiving funds and must be a signatory on the required Memorandum of Understanding (MOU). A sample MOU is provided online at: https://www.bja.gov/Funding/JAGMOU.pdf. Disparate jurisdictions do not need to abide by the listed individual allocations, which are provided for information only. Jurisdictions in a funding disparity are responsible for determining individual amounts within the Eligible Joint Allocation and for documenting individual allocations in the MOU.

Subject: Fiscal Year (FY) 2016 Local Edward Byrne Memorial Justice Assistance Grant (JAG) Program announcement

The Bureau of Justice Assistance (BJA) is pleased to announce that FY 2016 Local JAG Program funding information is now available and appears on the BJA JAG web page.

Please note that this email is being sent to a large group of potential Local JAG applicants and does not necessarily confirm your jurisdiction's eligibility under the FY 2016 Local JAG Program.

Eligible jurisdictions under FY 2016 Local JAG are limited to units of local government appearing on the FY 2016 Local JAG Allocations list. Please verify your eligibility, and **if eligible**, review the associated FY 2016 Local JAG solicitation and submit an application for funding through the Office of Justice Program's (OJP) Grants Management System (GMS) by 8:00 p.m. Eastern on Thursday, June 30, 2016.
5:00 pm

Please contact the GMS Help Desk at 1-888-549-9901 (Option 3) prior to the deadline if you experience any technical difficulties with submission. Applications must be submitted by the stated deadline, regardless of whether the 30 day governing body review requirement has been satisfied. BJA will hold applications prior to processing until the 30 day governing body review requirement has been met OR will attach a withholding of funds special condition to the award until the governing body requirement has been satisfied.

For questions related to the JAG solicitation, please contact the National Criminal Justice Reference Service (NCJRS) Response Center: toll-free at 1-800-851-3420; via TTY at 301-240-6310 (hearing impaired only); email grants@ncjrs.gov; fax to 301-240-5830; or web chat at https://webcontact.ncjrs.gov/ncjchat/chat.jsp. The NCJRS Response Center hours of operation are 10:00 a.m. to 6:00 p.m. eastern time, Monday through Friday. You may also contact your State PolicyAdvisor.

Listed below are all jurisdictions in the state that are eligible for FY 2016 JAG funding, as determined by the JAG formula. For additional details regarding the JAG formula and award calculation process, with examples, please refer to the updated JAG Technical report here: http://www.bjs.gov/content/pub/pdf/jagp15.pdf and current JAG Frequently Asked Questions here: https://www.bja.gov/Funding/JAGFAQ.pdf
Finding your jurisdiction:
(1) Disparate jurisdictions are listed in shaded groups below, in alphabetic order by county.
(2) Eligible individual allocations are listed alphabetically below the shaded, disparate groupings.
(3) Counties that have an asterisk (*) under the "Eligible Individual Allocation" column did not submit the level of violent crime data to qualify for a direct award from BJA, but are in the disparate grouping indicated by the shaded area. The JAG legislation requires these counties to remain a partner with the local jurisdictions receiving funds and must be a signatory on the required Memorandum of Understanding (MOU). A sample MOU is provided online at: https://www.bja.gov/Funding/JAGMOU.pdf. Disparate jurisdictions do not need to abide by the listed individual allocations, which are provided for information only. Jurisdictions in a funding disparity are responsible for determining individual amounts within the Eligible Joint Allocation and for documenting individual allocations in the MOU.

Edward Byrne Memorial Justice Assistance Grant (JAG) Program: FY 2016 Local Solicitation (CFDA #16.738)

A. Program Description

Overview
The Edward Byrne Memorial Justice Assistance Grant (JAG) Program (42 U.S.C. § 3751(a)) is the primary provider of federal criminal justice funding to state and local jurisdictions. The JAG Program provides states and units of local governments with critical funding necessary to support a range of program areas including law enforcement; prosecution and court programs; prevention and education programs; corrections and community corrections; drug treatment and enforcement; crime victim and witness initiatives; and planning, evaluation, and technology improvement programs.

Program-Specific Information
JAG funds may be used for state and local initiatives, technical assistance, strategic planning, research and evaluation (including forensics), data collection, training, personnel, equipment, forensic laboratories, supplies, contractual support, and criminal justice information systems that will improve or enhance such areas as:

- Law enforcement programs.
- Prosecution and court programs, including indigent defense.
- Prevention and education programs.
- Corrections, community corrections and reentry programs.
- Drug treatment and enforcement programs.
- Planning, evaluation, and technology improvement programs.
- Crime victim and witness programs (other than compensation).

Additionally, BJA reminds applicants that the JAG program allows funding for broadband deployment and adoption activities as they relate to criminal justice activities.

JAG Priority Areas
BJA recognizes that there are significant pressures on state and local criminal justice systems. In these challenging times, shared priorities and leveraged resources can make a significant impact. In light of this, it is important to make State Administering Agencies (SAAs) and local JAG recipients aware of several areas of priority that may be of help in maximizing the effectiveness of JAG funding at the state and local level. The following priorities represent key areas where BJA will be focusing nationally and encourages each state and local JAG recipient to join us in addressing these challenges as a part of our JAG partnership:

Reducing Gun Violence
Gun violence has touched nearly every state, local, and tribal government in America. BJA continues to encourage states and localities to invest valuable JAG funds in programs to combat gun violence, enforce existing firearms laws, and improve the process for ensuring that persons prohibited from purchasing or owning guns are prevented from doing so by enhancing reporting to the FBI's National Instant Criminal Background Check System (NICS).

While our nation has made great strides in reducing violent crime, some municipalities and regions continue to experience unacceptable levels of violent crime at rates far in excess of the national average. In 2014, as part of BJA's longstanding commitment to support effective strategies to reduce violent crime, BJA launched the Violence Reduction Network (VRN). By the end of FY 2016, 10 VRN sites, working with a broad network of federal, state, and local partners, will be implementing data-driven evidence-based strategies to reduce deeply entrenched violent crime in their communities. States and localities can support VRN sites by investing JAG funds in technology, crime analysis, training, and community-based crime reduction programs in VRN communities. For information on VRN, see www.bja.gov/Programs/VRN.html.

Body-Worn Cameras, Storage, and Policies

Law enforcement agencies across the country are equipping their officers with body-worn cameras (BWCs) to increase transparency and build community trust. The important benefits of BWCs, and the challenges in implementing BWC programs, are highlighted in several recent publications: see the Office of Justice Programs' Diagnostic Center report *Police Officer Body-Worn Cameras: Assessing the Evidence,* and the COPS Office and Police Executive Research Forum paper, *Implementing A Body-Worn Camera Program: Recommendations and Lessons Learned*.

JAG funding is an important potential source of funding for law enforcement agencies implementing new BWC programs or enhancing existing programs. JAG funds may be used to purchase BWCs and for costs associated with the BWC program, such as storage and policy development. Similarly, SAAs are encouraged to use either their Variable Pass-Through (VPT) or their "less than $10,000" funding that is added into the state award to set aside funds to assist small departments in implementing BWC programs. Grantees who wish to use JAG funds to purchase BWC equipment, or to implement or enhance BWC programs, must certify that they or the law enforcement agency receiving the BWC funding have policies and procedures in place related to equipment usage, data storage, privacy, victims, access, disclosure, training, etc. A copy of the required BWC certification can be found at www.bja.gov/Funding/BodyWornCameraCert.pdf.

The BJA BWC Toolkit provides model BWC policies, resources, and best practices to assist departments in implementing BWC programs.

National Incident-Based Reporting System (NIBRS)

The FBI has formally announced its intentions to establish NIBRS as the law enforcement (LE) crime data reporting standard for the nation. The transition to NIBRS will provide a more complete and accurate picture of crime at the national, state, and local level. Once this transition is complete, the FBI will no longer collect summary data and will only accept data in the NIBRS format and JAG awards will be based on submitted NIBRS data. Transitioning all law enforcement agencies to NIBRS is the first step in gathering more comprehensive crime data. State and local JAG grantees are encouraged to use JAG funds to expedite the transition to NIBRS in their jurisdictions.

Justice System Reform and Reentry

There is growing bipartisan support for Justice Systems Reform and Reentry. A promising approach to justice systems reform is the Justice Reinvestment Initiative (JRI), a public-private partnership between BJA and the PEW Public Safety Performance Project. Currently, 30 states have used the justice reinvestment process to control spiraling incarceration costs and reinvest

in evidence-based criminal justice programs and strategies. Strategic investments of JAG funds to implement JRI legislation and policy changes in JRI states can augment federal funds and achieve greater cost savings and reinvestments in programs to promote public safety. For state-by-state information on JRI, please visit the JRI Sites web page.

Over the past seven years, DOJ has partnered with state, local, and tribal agencies and national organizations to support hundreds of reentry programs across the country to provide job training, healthcare, housing, treatment, and other services to individuals returning to our communities from prisons and jails. The demand for effective reentry services remains high. More than 600,000 men and women leave our prisons every year and more than 11 million people cycle through our jails. Investments of JAG funds to support reentry efforts at the state and local level will pay dividends for returning citizens and for public safety in America. A summary of research-based reentry strategies is available on the National Reentry Resource Center's What Works in Reentry Clearinghouse along with a map identifying federally funded Second Chance Act Reentry programs at the state and local level.
(See https://csgjusticecenter.org/nrrc).

Public Defense

Another key priority area is support for improving public defense delivery systems. To support this priority in November 2015, BJA established the Right to Counsel National Consortium (www.rtcnationalcampaign.org) to spearhead a national conversation on how to ensure the Sixth Amendment Right to Counsel for every individual. BJA continues to encourage states and SAAs to use JAG funds to ensure that no person faces the loss of liberty without first having the aid of a lawyer with the time, ability, and resources to present an effective defense. Currently, across the nation public defense reform is being supported by governors, state legislators, chief judges and local communities. Research shows that early appointment of counsel can decrease jail and prison stays and produce better outcomes for defendants and communities. Many of these successes are guided by the American Bar Association's Ten Principles of a Public Defense Delivery System, which are recommendations for government officials and other parties who are charged with improving public defense delivery systems (http://www.americanbar.org/content/dam/aba/administrative/legal_aid_indigent_defendants/ls_sclaid_def_tenprinciplesbooklet.authcheckdam.pdf).

Improving Mental Health Services

Many people with mental illness enter the criminal justice system without a diagnosis or with untreated mental illness. Screening and assessment is critical to identify and provide appropriate referrals to treatment. This is an issue that impacts numerous facets of the criminal justice system. BJA encourages states to utilize JAG funding in support of programs and policy changes aimed at identifying and treating people with severe mental illness to divert when appropriate, treat during incarceration, and engage in appropriate pre-release planning for the provision of community treatment (see JMHCP Resources). BJA provides training and technical assistance (TTA) to grantees and non-grantees (states, jurisdictions) to increase enrollment in health care plans (increase linkages to health care providers) that can increase access to treatment for improved mental health outcomes. Information can be found at www.bjatraining.org.

DOJ Universal Accreditation w/Forensic Service Providers

In 2015, the National Commission on Forensic Science (NCFS) announced recommendations on strengthening the field of forensic science. There are a number of key principles, which include promoting universal accreditation and finding ways to improve upon medical-legal

investigative processes. For additional information on these recommendations, please review the New Accreditation Policies to Advance Forensic Science. The JAG program provides broad-based support to states and local jurisdictions across the nation in order to strengthen our criminal justice system, including the forensic sciences. As such, BJA encourages investments of JAG funds for programs and activities related to forensic work, including accreditation of forensic labs.

Goals, Objectives, and Deliverables
The Chief Executive Officer (CEO) of an eligible unit of local government or other officer designated by the CEO must submit the application for JAG funds. A unit of local government receiving a JAG award will be responsible for the administration of the funds including: distributing the funds; monitoring the award; submitting quarterly financial status (SF-425), performance metrics reports, and semi-annual programmatic reports; and providing ongoing oversight and assistance to any subrecipients of the funds.

Evidence-Based Programs or Practices
OJP strongly emphasizes the use of data and evidence in policy making, program development, and program implementation in criminal justice, juvenile justice, and crime victim services. OJP is committed to:

- Improving the quantity and quality of evidence OJP generates
- Integrating evidence into program, practice, and policy decisions within OJP and the field
- Improving the translation of evidence into practice

OJP considers programs and practices to be evidence-based when their effectiveness has been demonstrated by causal evidence, generally obtained through one or more outcome evaluations. Causal evidence documents a relationship between an activity or intervention (including technology) and its intended outcome, including measuring the direction and size of a change, and the extent to which a change may be attributed to the activity or intervention. Causal evidence depends on the use of scientific methods to rule out, to the extent possible, alternative explanations for the documented change. The strength of causal evidence, based on the factors described above, will influence the degree to which OJP considers a program or practice to be evidence-based. The OJP CrimeSolutions.gov website is one resource that applicants may use to find information about evidence-based programs in criminal justice, juvenile justice, and crime victim services.

1. A useful matrix of evidence-based policing programs and strategies is available through the Center for Evidence-Based Crime Policy at George Mason University. BJA offers a number of program models designed to effectively implement promising and evidence-based strategies through the BJA "Smart Suite" of programs including Smart Policing, Smart Supervision, Smart Pretrial, Smart Defense, Smart Prosecution, Smart Reentry and others (see https://www.bja.gov/programs/crppe/smartsuite.htm). BJA encourages states to use JAG funds to support these "smart on crime" strategies, including effective partnerships with universities and research partners and with non-traditional criminal justice partners.

BJA Success Stories
The BJA Success Story web page was designed to identify and highlight projects that have demonstrated success or shown promise in reducing crime and positively impacting communities. This web page will be a valuable resource for states, localities, territories, tribes,

and criminal justice professionals who seek to identify and learn about JAG and other successful BJA-funded projects linked to innovation, crime reduction, and evidence-based practices. **BJA strongly encourages the recipient to submit annual (or more frequent) success stories.**

If you have a Success Story you would like to submit, sign in to your My BJA account to access the Success Story Submission form. If you do not have a My BJA account, please register. Once you register, one of the available areas on your *My BJA* page will be *"My Success Stories."* Within this box, you will see an option to add a Success Story. Once reviewed and approved by BJA, all success stories will appear on the BJA Success Story web page.

B. Federal Award Information

BJA estimates that it will make up to 1,161 local awards totaling an estimated $86.4 million.

Awards of at least $25,000 are four years in length, and award periods will be from October 1, 2015 through September 30, 2019. Extensions beyond this period may be made on a case-by-case basis at the discretion of BJA and must be requested via GMS no less than 30 days prior to the grant end date.

Awards of less than $25,000 are two years in length, and award periods will be from October 1, 2015 through September 30, 2017. Extensions of up to two years can be requested for these awards via GMS no less than 30 days prior to the grant end date, and will be automatically granted upon request.

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law.

Eligible allocations under JAG are posted annually on BJA's JAG web page: www.bja.gov/ProgramDetails.aspx?Program_ID=59.

Type of Award[1]
BJA expects that it will make any award from this solicitation in the form of a grant.

JAG awards are based on a statutory formula as described below:
Once each fiscal year's overall JAG Program funding level is determined, BJA partners with the Bureau of Justice Statistics (BJS) to begin a four-step grant award calculation process which consists of:

1. Computing an initial JAG allocation for each state and territory, based on their share of violent crime and population (weighted equally).

2. Reviewing the initial JAG allocation amount to determine if the state or territory allocation is less than the minimum ("de minimus") award amount defined in the JAG legislation (0.25 percent of the total). If this is the case, the state or territory is funded at the minimum level, and the funds required for this are deducted from the overall pool of JAG

[1] *See generally* 31 U.S.C. §§ 6301-6305 (defines and describes various forms of federal assistance relationships, including grants and cooperative agreements [a type of grant]).

funds. Each of the remaining states receives the minimum award plus an additional amount based on their share of violent crime and population.

3. Dividing each state's final award amount (except for the territories and District of Columbia) between state and local governments at a rate of 60 and 40 percent, respectively.

4. Determining local unit of government award allocations, which are based on their proportion of the state's 3-year violent crime average. If a local eligible award amount is less than $10,000, the funds are returned to the state to be awarded to these local units of government through the state agency. If the eligible award amount is $10,000 or more, then the local government is eligible to apply for a JAG award directly from BJA.

Financial Management and System of Internal Controls
Award recipients and subrecipients (including any recipient or subrecipient funded in response to this solicitation that is a pass-through entity[2]) must, as described in the Part 200 Uniform Requirements set out at 2 C.F.R. 200.303:

(a) Establish and maintain effective internal control over the Federal award that provides reasonable assurance that the recipient (and any subrecipient) is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in "Standards for Internal Control in the Federal Government" issued by the Comptroller General of the United States and the "Internal Control Integrated Framework," issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

(b) Comply with Federal statutes, regulations, and the terms and conditions of the Federal awards.

(c) Evaluate and monitor the recipient's (and any subrecipient's) compliance with statutes, regulations, and the terms and conditions of Federal awards.

(d) Take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings.

(e) Take reasonable measures to safeguard protected personally identifiable information and other information the Federal awarding agency or pass-through entity designates as sensitive or the recipient (or any subrecipient) considers sensitive consistent with applicable Federal, state, local, and tribal laws regarding privacy and obligations of confidentiality.

In order to better understand administrative requirements and cost principles, applicants are encouraged to enroll, at no charge, in the Department of Justice Grants Financial Management Online Training available here.

[2] For purposes of this solicitation (or program announcement), "pass-through entity" includes any entity eligible to receive funding as a recipient or subrecipient under this solicitation (or program announcement) that, if funded, may make a subaward(s) to a subrecipient(s) to carry out part of the funded program.

Budget Information

Administrative Funds – Grant recipients may use up to 10 percent of the JAG award, including up to 10 percent of any earned interest, for costs associated with administering funds. Administrative funds (when utilized) must be tracked separately and recipients must report on SF-425s those expenditures that specifically relate to each grant number and established grant period. Additionally, recipients and subrecipients are prohibited from commingling funds on a program-by-program or project-by-project basis. More specifically, administrative funds under JAG are utilized for the same purpose each year (i.e., the administration of JAG funding) and therefore not considered separate programs/projects (commingling is not occurring) when utilized across all active JAG awards.

Disparate Certification – A disparate allocation occurs when a city or municipality is allocated one-and-one-half times (150 percent) more than the county, while the county bears more than 50 percent of the costs associated with prosecution or incarceration of the municipality's Part 1 violent crimes. A disparate allocation also occurs when multiple cities or municipalities are collectively allocated four times (400 percent) more than the county, and the county bears more than 50 percent of the collective costs associated with prosecution or incarceration of each municipality's Part 1 violent crimes.

Jurisdictions certified as disparate must identify a fiscal agent that will submit a joint application for the aggregate eligible allocation to all disparate municipalities. The joint application must determine and specify the award distribution to each unit of local government and the purposes for which the funds will be used. When beginning the JAG application process, a Memorandum of Understanding (MOU) that identifies which jurisdiction will serve as the applicant/fiscal agent for joint funds must be completed and signed by the Authorized Representative for each participating jurisdiction. The signed MOU should be attached to the application. For a sample MOU, go to www.bja.gov/Funding/JAGMOU.pdf.

Supplanting – Supplanting is prohibited under JAG. Applicants cannot replace or supplant non-federal funds that have been appropriated for the same purpose. See the JAG FAQs on BJA's JAG web page for examples of supplanting.

Leveraging of Grant Funds – Although supplanting is prohibited, the leveraging of federal funding is encouraged. For example, a city may utilize JAG and Homeland Security Grant Program (HSGP) money to fund different portions of a fusion center project. In instances where leveraging occurs, all federal grant funds must be tracked and reported separately and may not be used to fund the same line items. Additionally, federal funds cannot be used as match for other federal awards.

Trust Fund – Units of Local Government may draw down JAG funds in advance. To do so, a trust fund must be established in which to deposit the funds. The trust fund may or may not be an interest-bearing account. If subrecipients draw down JAG funds in advance, they also must establish a trust fund in which to deposit funds. This trust fund requirement does not apply to direct JAG award recipients or subrecipients that draw down on a reimbursement basis rather than in advance.

Prohibited and Controlled Uses – The JAG Prohibited and Controlled Expenditures Guidance represents a combination of BJA-controlled items and those controlled under the Executive Order on "Federal Support for Local Law Enforcement Equipment Acquisition" that was signed on January 16, 2015. The guidance contains:

1. Table of all prohibited expenditures (strictly unallowable expenditures under JAG).
2. Table of all controlled expenditures (expenditures which require prior written approval from BJA under JAG; including UAV guidance checklist).
3. Controlled Expenditures Justification Template (must be completed and submitted for any JAG controlled expenditures request to be considered for approval by BJA).
4. Overall Controlled Expenditure/Equipment Guidance (should be reviewed in conjunction with the template prior to controlled expenditures request(s) being submitted to BJA).
5. Standards for State, Local and Tribal Law Enforcement Agencies for the Acquisition of Controlled Equipment with Federal Resources.

Additional information on JAG controlled and prohibited expenditures, along with the process for requesting prior approval from BJA to expend funds on controlled items, can be found within the JAG FAQs.

Cost Sharing or Matching Requirement
This solicitation does not require a match. However, if a successful application proposes a voluntary match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

Pre-Agreement Cost (also known as Pre-award Cost) Approvals
Pre-agreement costs are costs incurred by the applicant prior to the start date of the period of performance of the grant award.

OJP does not typically approve pre-agreement costs; an applicant must request and obtain the prior written approval of OJP for all such costs. If approved, pre-agreement costs could be paid from grant funds consistent with a grantee's approved budget, and under applicable cost standards. However, all such costs prior to award and prior to approval of the costs are incurred at the sole risk of an applicant. Generally, no applicant should incur project costs before submitting an application requesting federal funding for those costs. Should there be extenuating circumstances that appear to be appropriate for OJP's consideration as pre-agreement costs, the applicant should contact the point of contact listed on the title page of this announcement for details on the requirements for submitting a written request for approval. See the section on Costs Requiring Prior Approval in the Financial Guide, for more information.

Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs
OJP strongly encourages applicants that propose to use award funds for any conference-, meeting-, or training-related activity to review carefully—before submitting an application—the OJP policy and guidance on conference approval, planning, and reporting available at www.ojp.gov/financialguide/DOJ/PostawardRequirements/chapter3.10a.htm. OJP policy and guidance (1) encourage minimization of conference, meeting, and training costs; (2) require prior written approval (which may affect project timelines) of most conference, meeting, and training costs for cooperative agreement recipients and of some conference, meeting, and training costs for grant recipients; and (3) set cost limits, including a general prohibition of all food and beverage costs.

Costs Associated with Language Assistance (if applicable)
If an applicant proposes a program or activity that would deliver services or benefits to individuals, the costs of taking reasonable steps to provide meaningful access to those services or benefits for individuals with limited English proficiency may be allowable. Reasonable steps to provide meaningful access to services or benefits may include interpretation or translation services where appropriate.

For additional information, see the "Civil Rights Compliance" section under "Solicitation Requirements" in OJP's Funding Resource Center.

Other JAG Requirements

Compliance with Applicable Federal Laws
Applicants for state and local JAG formula grants are required to certify compliance with all applicable federal laws at the time of application. In that regard, Members of Congress have asked the Department of Justice to examine whether jurisdictions with "sanctuary policies" (i.e., policies that either prevent law enforcement from releasing persons without lawful immigration status into federal custody for deportation, or that prevent state or local law enforcement from sharing certain information with Department of Homeland Security [DHS] officials), are in violation of 8 U.S.C. section 1373.

All applicants should understand that if OJP receives information that indicates that an applicant may be in violation of any applicable federal law, that applicant may be referred to the DOJ Office of Inspector General (OIG) for investigation; if the applicant is found to be in violation of an applicable federal law by the OIG, the applicant may be subject to criminal and civil penalties, in addition to relevant OJP programmatic penalties, including suspension or termination of funds, inclusion on the high risk list, repayment of funds, or suspension and debarment.

Law Enforcement Agency Training Information
Any law enforcement agency receiving direct or subawarded JAG funding must submit quarterly accountability metrics data related to training on use of force, racial and ethnic bias, de-escalation of conflict, and constructive engagement with the public that officers have received. **Any grantees that fail to submit this data will have their grant funds frozen.**

Accountability metrics reports must be submitted through BJA's PMT, available at www.bjaperformancetools.org. The accountability measures can be found at: http://www.bjaperformancetools.org/help/jagdocs.html.

Body-Worn Camera (BWC) purchases
Grantees who wish to use JAG funds to purchase BWC equipment, or to implement or enhance BWC programs, must certify that they or the law enforcement agency receiving the BWC funding have policies and procedures in place related to equipment usage, data storage, privacy, victims, access, disclosure, training, etc. A copy of the required BWC certification can be found at www.bja.gov/Funding/BodyWornCameraCert.pdf.

Any grantees that wish to use JAG funds for BWC-related expenses who do not have BWC policies and procedures in place will have funds withheld until a certification is submitted and approved by BJA.

The BJA BWC Toolkit provides model BWC policies, resources, and best practices to assist departments in implementing BWC programs.

Body Armor

Ballistic-resistant and stab-resistant body armor can be funded through two BJA-administered programs: the JAG Program and the Bulletproof Vest Partnership (BVP) Program. The BVP Program is designed to provide a critical resource to state and local law enforcement through the purchase of ballistic-resistant and stab-resistant body armor. A jurisdiction is able to request up to 50 percent of the cost of a vest with BVP funds. For more information on the BVP Program, including eligibility and application, refer to the BVP web page.

JAG funds may also be used to purchase vests for an agency, but they may not be used to pay for that portion of the ballistic-resistant vest (50 percent) that is not covered by BVP funds. Unlike BVP, JAG funds used to purchase vests do not require a 50 percent match. Vests purchased with JAG funds may be purchased at any threat level, make, or model from any distributor or manufacturer, as long as the vests have been tested and found to comply with the latest applicable National Institute of Justice (NIJ) ballistic or stab standards. In addition, vests purchased must be American-made. Information on the latest NIJ standards can be found at: www.nij.gov/topics/technology/body-armor/safety-initiative.htm.

As is the case in BVP, grantees who wish to purchase vests with JAG funds must certify that law enforcement agencies receiving vests have a written "mandatory wear" policy in effect. FAQs related to the mandatory wear policy and certifications can be found at www.bja.gov/Funding/JAGFAQ.pdf. This policy must be in place for at least all uniformed officers before any FY 2016 funding can be used by the agency for vests. There are no requirements regarding the nature of the policy other than it being a mandatory wear policy for all uniformed officers while on duty. The certification **must** be signed by the Authorized Representative and **must** be attached to the application. If the grantee proposes to change project activities to utilize JAG funds to purchase bulletproof vests after the application period (during the project period), the grantee must submit the signed certification to BJA at that time. A mandatory wear concept and issues paper and a model policy are available by contacting the BVP Customer Support Center vests@usdoj.gov or toll free at 1–877–758–3787.

A copy of the certification related to the mandatory wear can be found at: www.bja.gov/Funding/BodyArmorMandatoryWearCert.pdf.

DNA Testing of Evidentiary Materials and Upload of DNA Profiles to a Database

If JAG Program funds will be used for DNA testing of evidentiary materials, any resulting eligible DNA profiles must be uploaded to the Combined DNA Index System (CODIS, the national DNA database operated by the FBI) by a government DNA lab with access to CODIS. No profiles generated with JAG funding may be entered into any other non-governmental DNA database without prior express written approval from BJA. For more information, refer to the NIJ DNA Backlog Reduction Program, available at www.nij.gov/topics/forensics/lab-operations/evidence-backlogs/Pages/backlog-reduction-program.aspx.

In addition, funds may not be used for purchase of DNA equipment and supplies when the resulting DNA profiles from such technology are not accepted for entry into CODIS.

Interoperable Communications

Grantees (including subgrantees) that are using FY 2016 JAG Program funds to support emergency communications activities (including the purchase of interoperable communications equipment and technologies such as voice-over-internet protocol bridging or gateway devices, or equipment to support the build out of wireless broadband networks in the 700 MHz public safety band under the Federal Communications Commission (FCC) Waiver Order) should review *FY 2016 SAFECOM Guidance.* The SAFECOM Guidance is updated annually to provide current information on emergency communications policies, eligible costs, best practices, and technical standards for state, local, tribal, and territorial grantees investing federal funds in emergency communications projects. Additionally, emergency communications projects should support the Statewide Communication Interoperability Plan (SCIP) and be coordinated with the full-time Statewide Interoperability Coordinator (SWIC) in the state of the project. As the central coordination point for their state's interoperability effort, the SWIC plays a critical role, and can serve as a valuable resource. SWICs are responsible for the implementation of the SCIP through coordination and collaboration with the emergency response community. The U.S. Department of Homeland Security Office of Emergency Communications maintains a list of SWICs for each of the 56 states and territories. Contact OEC@hq.dhs.gov. All communications equipment purchased with grant award funding should be identified during quarterly performance metrics reporting.

In order to promote information sharing and enable interoperability among disparate systems across the justice and public safety community, OJP requires the grantee to comply with DOJ's Global Justice Information Sharing Initiative guidelines and recommendations for this particular grant. Grantee shall conform to the Global Standards Package (GSP) and all constituent elements, where applicable, as described at: www.it.ojp.gov/gsp_grantcondition. Grantees shall document planned approaches to information sharing and describe compliance to the GSP and appropriate privacy policy that protects shared information, or provide detailed justification for why an alternative approach is recommended.

C. Eligibility Information

For eligibility information, see the title page.

For additional information on cost sharing or matching requirements, see Section B. Federal Award Information.

Limit on Number of Application Submissions

If an applicant submits multiple versions of the same application, BJA will review only the most recent system-validated version submitted. For more information on system-validated versions, see How to Apply.

D. Application and Submission Information

What an Application Should Include

Applicants should anticipate that if they fail to submit an application that contains all of the specified elements, it may negatively affect the review of their application; and, should a decision be made to make an award, it may result in the inclusion of special conditions that

preclude the recipient from accessing or using award funds pending satisfaction of the conditions.

Applicants may combine the Budget Narrative and the Budget Detail Worksheet in one document. However, if an applicant submits only one budget document, it must contain **both** narrative and detail information. Please review the "Note on File Names and File Types" under How to Apply to be sure applications are submitted in permitted formats.

OJP strongly recommends that applicants use appropriately descriptive file names (e.g., "Program Narrative," "JAG Budget and Budget Narrative," "Timelines," "Memoranda of Understanding," "Résumés") for all attachments. Also, OJP recommends that applicants include résumés in a single file.

Failure to submit the required information will result in an application being returned in the Grants Management System (GMS) for inclusion of the missing information OR the attachment of a withholding of funds special condition at the time of award.

1. Information to Complete the Application for Federal Assistance (SF-424)

The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. GMS takes information from the applicant's profile to populate the fields on this form.

Intergovernmental Review: This funding opportunity is subject to Executive Order 12372. Applicants may find the names and addresses of their state's Single Point of Contact (SPOC) at the following website: www.whitehouse.gov/omb/grants_spoc/. Applicants whose state appears on the SPOC list must contact their state's SPOC to find out about, and comply with, the state's process under Executive Order 12372. In completing the SF-424, applicants whose state appears on the SPOC list are to make the appropriate selection in response to question 19 once the applicant has complied with their state's E.O. 12372 process. (Applicants whose state does not appear on the SPOC list are to make the appropriate selection in response to question 19 to indicate that the "Program is subject to E.O. 12372 but has not been selected by the State for review.")

2. Project Abstract

Applications should include a high-quality project abstract that summarizes the proposed project in 400 words or less. Project abstracts should be:

- Written for a general public audience and submitted as a separate attachment with "Project Abstract" as part of its file name.
- Single-spaced, using a standard 12-point font (Times New Roman) with 1-inch margins
- Include applicant name, title of the project, a brief description of the problem to be addressed and the targeted area/population, project goals and objectives, a description of the project strategy, any significant partnerships, and anticipated outcomes.
- Identify up to 5 project identifiers that would be associated with proposed project activities. The list of identifiers can be found at www.bja.gov/funding/JAGIdentifiers.pdf.

As a separate attachment, the project abstract will **not** count against the page limit for the program narrative.

3. Program Narrative

Applicants must submit a program narrative that generally describes the proposed program activities for the two or four year grant period. The narrative must outline the type of programs to be funded by the JAG award and provide a brief analysis of the need for the programs. Narratives must also identify anticipated coordination efforts involving JAG and related justice funds. Certified disparate jurisdictions submitting a joint application must specify the funding distribution to each disparate unit of local government and the purposes for which the funds will be used.

A plan for collecting the data required for this solicitation's performance measures should also be included. To demonstrate program progress and success, as well as to assist the Department with fulfilling its responsibilities under the Government Performance and Results Act of 1993 (GPRA), Public Law 103-62, and the GPRA Modernization Act of 2010, Public Law 111–352, applicants that receive funding under this solicitation must provide data that measure the results of their work done under this solicitation. **Quarterly accountability metrics reports must be submitted through BJA's PMT, available at** www.bjaperformancetools.org**. The accountability measures can be found at:** http://www.bjaperformancetools.org/help/jagdocs.html**.**

BJA does not require applicants to submit performance measures data with their application. Performance measures are included as an alert that BJA will require successful applicants to submit specific data as part of their reporting requirements. For the application, applicants should indicate an understanding of these requirements and discuss how they will gather the required data, should they receive funding.

Note on Project Evaluations

Applicants that propose to use funds awarded through this solicitation to conduct project evaluations should be aware that certain project evaluations (such as systematic investigations designed to develop or contribute to generalizable knowledge) may constitute "research" for purposes of applicable DOJ human subjects protection regulations. However, project evaluations that are intended only to generate internal improvements to a program or service, or are conducted only to meet OJP's performance measure data reporting requirements likely do not constitute "research." Applicants should provide sufficient information for OJP to determine whether the particular project they propose would either intentionally or unintentionally collect and/or use information in such a way that it meets the DOJ regulatory definition of research.

Research, for the purposes of human subjects protections for OJP-funded programs, is defined as, "a systematic investigation, including research development, testing, and evaluation, designed to develop or contribute to generalizable knowledge" 28 C.F.R. § 46.102(d). For additional information on determining whether a proposed activity would constitute research, see the decision tree to assist applicants on the "Research and the Protection of Human Subjects" section of the OJP's Funding Resource Center. Applicants whose proposals may involve a research or statistical component also should review the "Data Privacy and Confidentiality Requirements" section on that web page.

4. Budget Detail Worksheet and Budget Narrative

Applicants must submit a budget detail worksheet and budget narrative outlining how JAG funds, including administrative funds (up to 10% of the grant award) if applicable, will be used to

support and implement the program. Please note that if an applicant submits only one budget document, it must contain **both** narrative and detail information.

a. **Budget Detail Worksheet**
A sample Budget Detail Worksheet can be found at www.ojp.gov/funding/Apply/Resources/BudgetDetailWorksheet.pdf. Applicants that submit their budget in a different format should include the budget categories listed in the sample budget worksheet. The Budget Detail Worksheet should be broken down by year.

b. **Budget Narrative**
The budget narrative should thoroughly and clearly describe every category of expense listed in the Budget Detail Worksheet. OJP expects proposed budgets to be complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities). **This narrative should include a full description of all costs, including administrative costs (if applicable) and how funds will be allocated across the seven allowable JAG program areas** (law enforcement, prosecution, indigent defense, courts, crime prevention and education, corrections and community corrections, drug treatment and enforcement, planning, evaluation, technology improvement, and crime victim and witness initiatives).

Applicants should demonstrate in their budget narratives how they will maximize cost effectiveness of grant expenditures. Budget narratives should generally describe cost effectiveness in relation to potential alternatives and the goals of the project. For example, a budget narrative should detail why planned in-person meetings are necessary, or how technology and collaboration with outside organizations could be used to reduce costs, without compromising quality.

The narrative should be mathematically sound and correspond with the information and figures provided in the Budget Detail Worksheet. The narrative should explain how the applicant estimated and calculated all costs, and how they are relevant to the completion of the proposed project. The narrative may include tables for clarification purposes but need not be in a spreadsheet format. As with the Budget Detail Worksheet, the Budget Narrative should be broken down by year.

For questions pertaining to budget and examples of allowable and unallowable costs, see the DOJ Grants Financial Guide at www.ojp.gov/financialguide/index.htm.

c. **Non-Competitive Procurement Contracts In Excess of Simplified Acquisition Threshold**
If an applicant proposes to make one or more non-competitive procurements of products or services, where the non-competitive procurement will exceed the simplified acquisition threshold (also known as the small purchase threshold), which is currently set at $150,000, the application should address the considerations outlined in the Financial Guide.

d. **Pre-Agreement Costs**
For information on pre-agreement costs, see "Pre-Agreement Cost Approvals" under Section B. Federal Award Information.

5. **Indirect Cost Rate Agreement (if applicable)**

Indirect costs are allowed only under the following circumstances:

(a) The applicant has a current, federally approved indirect cost rate; or

(b) The applicant is eligible to use and elects to use the "de minimis" indirect cost rate described in the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.414(f).

Attach a copy of the federally approved indirect cost rate agreement to the application. Applicants that do not have an approved rate may request one through their cognizant federal agency, which will review all documentation and approve a rate for the applicant organization, or, if the applicant's accounting system permits, costs may be allocated in the direct cost categories. For the definition of Cognizant Federal Agency, see the "Glossary of Terms" in the Financial Guide. For assistance with identifying your cognizant agency, please contact the Customer Service Center at 1-800-458-0786 or at ask.ocfo@usdoj.gov. If DOJ is the cognizant federal agency, applicants may obtain information needed to submit an indirect cost rate proposal at www.ojp.gov/funding/Apply/Resources/IndirectCosts.pdf.

In order to use the "de minimis" indirect rate, attach written documentation to the application that advises OJP of both the applicant's eligibility (to use the "de minimis" rate) and its election. If the applicant elects the "de minimis" method, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. In addition, if this method is chosen then it must be used consistently for all federal awards until such time as you choose to negotiate a federally approved indirect cost rate.[3]

6. **Tribal Authorizing Resolution (if applicable)**

Tribes, tribal organizations, or third parties proposing to provide direct services or assistance to residents on tribal lands should include in their applications a resolution, a letter, affidavit, or other documentation, as appropriate, that certifies that the applicant has the legal authority from the tribe(s) to implement the proposed project on tribal lands. In those instances when an organization or consortium of tribes applies for a grant on behalf of a tribe or multiple specific tribes, the application should include appropriate legal documentation, as described above, from all tribes that would receive services or assistance under the grant. A consortium of tribes for which existing consortium bylaws allow action without support from all tribes in the consortium (i.e., without an authorizing resolution or comparable legal documentation from each tribal governing body) may submit, instead, a copy of its consortium bylaws with the application.

Applicants unable to submit an application that includes a fully-executed (i.e., signed) copy of appropriate legal documentation, as described above, consistent with the applicable tribe's governance structure, should, at a minimum, submit an unsigned, draft version of such legal documentation as part of its application (except for cases in which, with respect to a tribal consortium applicant, consortium bylaws allow action without the support of all consortium member tribes). If selected for funding, BJA will make use of and access to funds contingent on receipt of the fully-executed legal documentation.

7. **Applicant Disclosure of High Risk Status**

Applicants that are currently designated high risk by another federal grant making agency must disclose that status. This includes any status requiring additional oversight by the federal agency due to past programmatic or financial concerns. If an applicant is designated

[3] See 2 C.F.R. § 200.414(f).

high risk by another federal grant making agency, the applicant must email the following information to OJPComplianceReporting@usdoj.gov at the time of application submission:

- The federal agency that currently designated the applicant as high risk
- Date the applicant was designated high risk
- The high risk point of contact name, phone number, and email address, from that federal agency
- Reasons for the high risk status

OJP seeks this information to ensure appropriate federal oversight of any grant award. Disclosing this high risk information does not disqualify any organization from receiving an OJP award. However, additional grant oversight may be included, if necessary, in award documentation.

8. Additional Attachments

a. Review Narrative

Applicants **must** submit information documenting that the date the JAG application was made available for review by the governing body of the state, or to an organization designated by that governing body, was not less than 30 days before the application was submitted to BJA. If the 30 governing body requirement cannot be met before the application deadline, a withholding special condition will be placed on the award until the governing body requirement can be met. The attachment must also specify that an opportunity to comment was provided to citizens prior to application submission to the extent applicable law or established procedures make such opportunity available.

Below are notification language templates that can be utilized in completing this section of the application.

The (**provide name of State/Territory**) made its Fiscal Year 2015 JAG application available to the (**provide name of governing body**) for its review and comment on (**provide date**); or intends to do so on (**provide date**).

The (**provide name of State/Territory**) made its Fiscal Year 2015 JAG application available to citizens for comment prior to application submission by (**provide means of notification**); or the application has not yet been made available for public review/comment.

b. Memorandum of Understanding (if applicable)

Jurisdictions certified as disparate must identify a fiscal agent that will submit a joint application for the aggregate eligible allocation to all disparate municipalities. The joint application must determine and specify the award distribution to each unit of local government and the purposes for which the funds will be used. When beginning the JAG application process, a Memorandum of Understanding (MOU) that identifies which jurisdiction will serve as the applicant/fiscal agent for joint funds must be completed and signed by the Authorized Representative for each participating jurisdiction. The signed MOU must be attached to the application. For a sample MOU, go to www.bja.gov/Funding/JAGMOU.pdf.

c. Applicant Disclosure of Pending Applications

Applicants are to disclose whether they have pending applications for federally funded grants or subgrants (including cooperative agreements) that include requests for funding to support the same project being proposed under this solicitation and will cover the identical cost items outlined in the budget narrative and worksheet in the application under this solicitation. The disclosure should include both direct applications for federal funding (e.g., applications to federal agencies) and indirect applications for such funding (e.g., applications to state agencies that will subaward federal funds).

OJP seeks this information to help avoid any inappropriate duplication of funding. Leveraging multiple funding sources in a complementary manner to implement comprehensive programs or projects is encouraged and is not seen as inappropriate duplication.

Applicants that have pending applications as described above are to provide the following information about pending applications submitted within the last 12 months:

- The federal or state funding agency
- The solicitation name/project name
- The point of contact information at the applicable funding agency

Federal or State Funding Agency	Solicitation Name/Project Name	Name/Phone/Email for Point of Contact at Funding Agency
DOJ/COPS	COPS Hiring Program	Jane Doe, 202/000-0000; jane.doe@usdoj.gov
HHS/ Substance Abuse & Mental Health Services Administration	Drug Free Communities Mentoring Program/ North County Youth Mentoring Program	John Doe, 202/000-0000; john.doe@hhs.gov

SAMPLE

Applicants should include the table as a separate attachment to their application. The file should be named "Disclosure of Pending Applications."

Applicants that do not have pending applications as described above are to include a statement to this effect in the separate attachment page (e.g., "[Applicant Name on SF-424] does not have pending applications submitted within the last 12 months for federally funded grants or subgrants (including cooperative agreements) that include requests for funding to support the same project being proposed under this solicitation and will cover the identical cost items outlined in the budget narrative and worksheet in the application under this solicitation.").

d. Research and Evaluation Independence and Integrity

If a proposal involves research and/or evaluation, regardless of the proposal's other merits, in order to receive funds, the applicant must demonstrate research/evaluation independence, including appropriate safeguards to ensure research/evaluation objectivity and integrity, both in this proposal and as it may relate to the applicant's other current or prior related projects. This documentation may be included as an attachment to the application which addresses BOTH i. and ii. below.

i. For purposes of this solicitation, applicants must document research and evaluation independence and integrity by including, at a minimum, one of the following two items:

   a. A specific assurance that the applicant has reviewed its proposal to identify any research integrity issues (including all principal investigators and subrecipients) and it has concluded that the design, conduct, or reporting of research and evaluation funded by BJA grants, cooperative agreements, or contracts will not be biased by any personal or financial conflict of interest on the part of part of its staff, consultants, and/or subrecipients responsible for the research and evaluation or on the part of the applicant organization;

   OR

   b. A specific listing of actual or perceived conflicts of interest that the applicant has identified in relation to this proposal. These conflicts could be either personal (related to specific staff, consultants, and/or subrecipients) or organizational (related to the applicant or any subgrantee organization). Examples of potential investigator (or other personal) conflict situations may include, but are not limited to, those in which an investigator would be in a position to evaluate a spouse's work product (actual conflict), or an investigator would be in a position to evaluate the work of a former or current colleague (potential apparent conflict). With regard to potential organizational conflicts of interest, as one example, generally an organization could not be given a grant to evaluate a project if that organization had itself provided substantial prior technical assistance to that specific project or a location implementing the project (whether funded by OJP or other sources), as the organization in such an instance would appear to be evaluating the effectiveness of its own prior work. The key is whether a reasonable person understanding all of the facts would be able to have confidence that the results of any research or evaluation project are objective and reliable. Any outside personal or financial interest that casts doubt on that objectivity and reliability of an evaluation or research product is a problem and must be disclosed.

ii. In addition, for purposes of this solicitation applicants must address the issue of possible mitigation of research integrity concerns by including, at a minimum, one of the following two items:

   a. If an applicant reasonably believes that no potential personal or organizational conflicts of interest exist, then the applicant should provide a brief narrative explanation of how and why it reached that conclusion. Applicants MUST also include an explanation of the specific processes and

procedures that the applicant will put in place to identify and eliminate (or, at the very least, mitigate) potential personal or financial conflicts of interest on the part of its staff, consultants, and/or subrecipients for this particular project, should that be necessary during the grant period. Documentation that may be helpful in this regard could include organizational codes of ethics/conduct or policies regarding organizational, personal, and financial conflicts of interest.

OR

b. If the applicant has identified specific personal or organizational conflicts of interest in its proposal during this review, the applicant must propose a specific and robust mitigation plan to address conflicts noted above. At a minimum, the plan must include specific processes and procedures that the applicant will put in place to eliminate (or, at the very least, mitigate) potential personal or financial conflicts of interest on the part of its staff, consultants, and/or subrecipients for this particular project, should that be necessary during the grant period. Documentation that may be helpful in this regard could include organizational codes of ethics/conduct or policies regarding organizational, personal, and financial conflicts of interest. There is no guarantee that the plan, if any, will be accepted as proposed.

Considerations in assessing research and evaluation independence and integrity will include, but are not limited to, the adequacy of the applicant's efforts to identify factors that could affect the objectivity or integrity of the proposed staff and/or the organization in carrying out the research, development, or evaluation activity; and the adequacy of the applicant's existing or proposed remedies to control any such factors.

9. **Financial Management and System of Internal Controls Questionnaire**
In accordance with the Part 200 Uniform Requirements as set out at 2 C.F.R. 200.205, federal agencies must have in place a framework for evaluating the risks posed by applicants before they receive a federal award. To facilitate part of this risk evaluation, **all** applicants (other than an individual) are to download, complete, and submit this form.

10. **Disclosure of Lobbying Activities**
Any applicant that expends any funds for lobbying activities is to provide the detailed information requested on the form, Disclosure of Lobbying Activities (SF-LLL).

How to Apply

Applicants must submit applications through the Grants Management System (GMS), which provides support for the application, award, and management of awards at OJP. Applicants **must register in GMS for each specific funding opportunity.** Although the registration and submission deadlines are the same, OJP urges applicants to **register immediately**, especially if this is their first time using the system. Find complete instructions on how to register and submit an application in GMS at www.ojp.gov/gmscbt/. Applicants that experience technical difficulties during this process should email GMS.HelpDesk@usdoj.gov or call 888-549-9901 (option 3), Monday–Friday from 6:00 a.m. to midnight, Eastern Time, except federal holidays. OJP recommends that applicants **register promptly** to prevent delays in submitting an application package by the deadline.

Note on File Types: GMS does not accept executable file types as application attachments. These disallowed file types include, but are not limited to, the following extensions: ".com," ".bat," ".exe," ".vbs," ".cfg," ".dat," ".db," ".dbf," ".dll," ".ini," ".log," ".ora," ".sys," and ".zip."

OJP may not make a federal award to an applicant organization until the applicant organization has complied with all applicable DUNS and SAM requirements. Individual applicants must comply with all Grants.gov requirements. If an applicant has not fully complied with the requirements by the time the federal awarding agency is ready to make a federal award, the federal awarding agency may determine that the applicant is not qualified to receive a federal award and use that determination as a basis for making a federal award to another applicant.

All applicants should complete the following steps:

1. **Acquire a Data Universal Numbering System (DUNS) number.** In general, the Office of Management and Budget (OMB) requires that all applicants (other than individuals) for federal funds include a DUNS number in their application for a new award or a supplement to an existing award. A DUNS number is a unique nine-digit sequence recognized as the universal standard for identifying and differentiating entities receiving Federal funds. The identifier is used for tracking purposes and to validate address and point of contact information for federal assistance applicants, recipients, and subrecipients. The DUNS number will be used throughout the grant life cycle. Obtaining a DUNS number is a free, one-time activity. Call Dun and Bradstreet at 866-705-5711 to obtain a DUNS number or apply online at www.dnb.com. A DUNS number is usually received within 1-2 business days.

2. **Acquire registration with the System for Award Management (SAM).** SAM is the repository for standard information about federal financial assistance applicants, recipients, and subrecipients. OJP requires that all applicants (other than individuals) for federal financial assistance maintain current registrations in the SAM database. Applicants must **update or renew their SAM registration annually** to maintain an active status. SAM registration and renewal can take as long as 10 business days to complete.

   Information about SAM registration procedures can be accessed at www.sam.gov.

3. **Acquire a GMS username and password**. New users must create a GMS profile by selecting the "First Time User" link under the sign-in box of the GMS home page. For more information on how to register in GMS, go to www.ojp.gov/gmscbt.

4. **Verify the SAM (formerly CCR) registration in GMS.** OJP requests that all applicants verify their SAM registration in GMS. Once logged into GMS, click the "CCR Claim" link on the left side of the default screen. Click the submit button to verify the SAM (formerly CCR) registration.

5. **Search for the funding opportunity on GMS.** After logging into GMS or completing the GMS profile for username and password, go to the "Funding Opportunities" link on the left side of the page. Select BJA and the **FY 16 Edward Byrne Memorial Local Justice Assistance Grant (JAG) Program.**

6. **Register by selecting the "Apply Online" button associated with the funding opportunity title.** The search results from step 5 will display the funding opportunity title

along with the registration and application deadlines for this funding opportunity. Select the "Apply Online" button in the "Action" column to register for this funding opportunity and create an application in the system.

7. **Follow the directions in GMS to submit an application consistent with this solicitation.** Once submitted, GMS will display a confirmation screen stating the submission was successful. **Important:** In some instances, applicants must wait for GMS approval before submitting an application. OJP urges applicants to submit the application **at least 72 hours prior** to the application due date.

Note: Duplicate Applications
If an applicant submits multiple versions of the same application, BJA will review only the most recent system-validated version submitted. See Note on "File Names and File Types" under How to Apply.

Experiencing Unforeseen GMS Technical Issues
Applicants that experience unforeseen GMS technical issues beyond their control that prevent them from submitting their application by the deadline must contact the GMS Help Desk or the SAM Help Desk (Federal Service Desk) to report the technical issue and receive a tracking number. Then the applicant must email the BJA contact identified in the Contact Information section on page 2 **within 24 hours after the application deadline** and request approval to submit their application. The email must describe the technical difficulties and include a timeline of the applicant's submission efforts, the complete grant application, the applicant's DUNS number, and any GMS Help Desk or SAM tracking number(s). **Note: BJA *does not* approve requests automatically.** After the program office reviews the submission, and contacts the GMS Help Desk to validate the reported technical issues, OJP will inform the applicant whether the request to submit a late application has been approved or denied. If OJP determines that the applicant failed to follow all required procedures, which resulted in an untimely application submission, OJP will deny the applicant's request to submit their application.

The following conditions are generally insufficient to justify late submissions:

- Failure to register in SAM or GMS in sufficient time (SAM registration and renewal can take as long as 10 business days to complete)
- Failure to follow GMS instructions on how to register and apply as posted on the GMS website
- Failure to follow each instruction in the OJP solicitation
- Technical issues with the applicant's computer or information technology environment, including firewalls, browser incompatibility, etc.

Notifications regarding known technical problems with GMS, if any, are posted at the top of the OJP funding web page at http://ojp.gov/funding/index.htm.

E. Application Review Information

Review Process

OJP is committed to ensuring a fair and open process for awarding grants. BJA reviews the application to make sure that the information presented is reasonable, understandable,

measurable, and achievable, as well as consistent with the solicitation. BJA will also review applications to ensure statutory requirements have been met.

OJP reviews applications for potential awards to evaluate the risks posed by applicants before they receive an award. This review may include but is not limited to the following:

1. Financial stability and fiscal integrity
2. Quality of management systems and ability to meet the management standards prescribed in the Financial Guide
3. History of performance
4. Reports and findings from audits
5. The applicant's ability to effectively implement statutory, regulatory, or other requirements imposed on award recipients

Absent explicit statutory authorization or written delegation of authority to the contrary, the Assistant Attorney General will make all final award decisions.

F. Federal Award Administration Information

Federal Award Notices
OJP sends award notification by email through GMS to the individuals listed in the application as the point of contact and the authorizing official. The email notification includes detailed instructions on how to access and view the award documents, and how to accept the award in GMS. GMS automatically issues the notifications at 9:00 p.m. eastern time on the award date (by September 30, 2016). Recipients will be required to login; accept any outstanding assurances and certifications on the award; designate a financial point of contact; and review, sign, and accept the award. The award acceptance process involves physical signature of the award document by the authorized representative and the scanning of the fully-executed award document to OJP.

Administrative, National Policy, and other Legal Requirements
If selected for funding, in addition to implementing the funded project consistent with the agency-approved project proposal and budget, the recipient must comply with award terms and conditions, and other legal requirements, including but not limited to OMB, DOJ, or other federal regulations which will be included in the award, incorporated into the award by reference, or are otherwise applicable to the award. OJP strongly encourages prospective applicants to review the information pertaining to these requirements **prior** to submitting an application. To assist applicants and recipients in accessing and reviewing this information, OJP has placed pertinent information on its Solicitation Requirements page of OJP's Funding Resource Center website.

Please note in particular the following two forms, which applicants must accept in GMS prior to the receipt of any award funds, as each details legal requirements with which applicants must provide specific assurances and certifications of compliance. Applicants may view these forms in the Apply section of OJP's Funding Resource Center and are strongly encouraged to review and consider them carefully prior to making an application for OJP grant funds.

- Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements

- Standard Assurances

Upon grant approval, OJP electronically transmits (via GMS) the award document to the prospective award recipient. In addition to other award information, the award document contains award terms and conditions that specify national policy requirements[4] with which recipients of federal funding must comply; uniform administrative requirements, cost principles, and audit requirements; and program-specific terms and conditions required based on applicable program (statutory) authority or requirements set forth in OJP solicitations and program announcements, and other requirements which may be attached to appropriated funding. For example, certain efforts may call for special requirements, terms, or conditions relating to intellectual property, data/information-sharing or -access, or information security; or audit requirements, expenditures and milestones; or publications and/or press releases. OJP also may place additional terms and conditions on an award based on its risk assessment of the applicant, or for other reasons it determines necessary to fulfill the goals and objectives of the program.

Prospective applicants may access and review the text of mandatory conditions OJP includes in all OJP awards, as well as the text of certain other conditions, such as administrative conditions, via OJP's Mandatory Award Terms and Conditions page of OJP's Funding Resource Center.

General Information about Post-Federal Award Reporting Requirements
Recipients must submit quarterly financial reports, semi-annual progress reports, final financial and progress reports, an annual audit report in accordance with the Part 200 Uniform Requirements, if applicable, and Federal Funding Accountability and Transparency Act (FFATA) reports through the FFATA Sub-award Reporting System (FSRS) as necessary. Future awards and fund drawdowns may be withheld if reports are delinquent.

Special Reporting requirements may be required by OJP depending on the statutory, legislative or administrative requirements of the recipient or the program.

G. Federal Awarding Agency Contact(s)

For Federal Awarding Agency Contact(s), see title page.

For contact information for GMS, see title page.

H. Other Information

LOPEZ/TORRES
06-14-16

ORDINANCE AMENDING CHAPTER CHAPTER 210, DOGS AND OTHER ANIMALS, ARTICLE I. DOGS, KENNELS AND PET SHOPS TO PROHIBIT THE SALE OF DOGS AND CATS FROM PET SHOPS

[FOLLOWING DRAFT TEXT IS UNDER LEGAL REVIEW BY THE CITY ATTORNEY'S OFFICE]

WHEREAS, Chapter 210. Dogs And Other Animals, Article I. Dogs, Kennels And Pet Shops, of the City Code, needs to be further amended for all the reasons set forth herein in the best interest of the residents of the City of Camden; and

WHEREAS, City Council has received testimony from the public that a significant number of puppies and kittens sold at pet shops come from large-scale, commercial breeding facilities where the health and welfare of the animals are not adequately provided for ("puppy mills" and "kitten mills," respectively). According to The Humane Society of the United States, it is estimated that 10,000 puppy mills produce more than 2,400,000 puppies a year in the United States and that most pet shop dogs and cats come from puppy mills and kitten mills; and

WHEREAS, the documented abuses endemic to puppy and kitten mills include over-breeding; inbreeding; minimal to non-existent veterinary care; lack of adequate and nutritious food, water and shelter; lack of socialization; lack of adequate space; and lack of adequate exercise; and

WHEREAS, the inhumane conditions in puppy and kitten mill facilities lead to health and behavioral issues in the animals bred in those facilities, which many consumers in the City are unaware of when purchasing animals from pet shops due to both a lack of education on the issue and misleading tactics of pet shops in some cases. These health and behavioral issues, which may not present themselves until sometime after the purchase of the animals, can impose exorbitant financial and emotional costs on consumers; and

WHEREAS, current federal, State and City law and regulations do not adequately address the sale of puppy and kitten mill dogs and cats in pet shops; and

WHEREAS, restricting the retail sale of puppies and kittens in the City to only those that are sourced from shelters or rescue organizations is likely to decrease the demand for puppies and kittens bred in puppy and kitten mills, and is likely to increase demand for animals from animal shelters and rescue organizations; and

WHEREAS, according to the New Jersey Department of Health 2014 Animal Intake and Disposition Survey, due in large part to pet overpopulation, more than 20,000 dogs and cats are euthanized in New Jersey animal shelters annually, including nearly 1,500 in the County of Camden. Restricting the retail sale of puppies and kittens to only those that are sourced from animal shelters and rescue organizations will likely reduce pet overpopulation and thus the burden on such agencies and financial costs on local taxpayers; and

WHEREAS, across the country, thousands of independent pet shops as well as large chains operate profitably with a business model focused on the sale of pet services and supplies and not on the sale of dogs and cats. Many of these shops collaborate with local animal shelters and rescue organizations to offer space and support for showcasing adoptable homeless pets on their premises; and

WHEREAS, this Ordinance will not affect a consumer's ability to obtain a dog or cat of his or her choice directly from a breed-specific rescue organization or a shelter, or from a hobby breeder where the consumer can see directly the conditions in which the dogs or cats are bred, or can confer directly with the hobby breeder concerning those conditions; and

WHEREAS, this City Council believes it is in the best interests of the City to adopt a reasonable ordinance to reduce costs to the City and its residents; protect the resident of Camden who may purchase cats or dogs from a pet shop or other business establishment; help prevent inhumane breeding conditions, promote community awareness of animal welfare; and foster a more humane environment in the City.

[DRAFT: 6-9-16
FOR INTERNAL REVIEW]

BE IT ORDAINED, by the City Council of the City of Camden that Chapter 210. Dogs And Other Animals, Article I. Dogs, Kennels And Pet Shops, of the City Code, be, and hereby is amended as follows:

STATEMENT

This bill permits municipalities to enact ordinances allowing police departments to curb gang loitering.

The bill defines a "criminal street gang" as an ongoing organization, association in fact or group of three or more persons, whether formal or informal, having as one of its substantial activities the commission of one or more of the criminal acts enumerated in the bill, and whose members individually or collectively engage in or have engaged in a pattern of criminal gang activity. The enumerated offenses are violent crimes for which a convicted person would be required to serve 85% of the sentence imposed before being eligible for parole.

Subject to guidelines of the chief law enforcement officer of the municipality, the bill provides that a municipality may enact an ordinance permitting a law enforcement officer who observes a member of a criminal street gang engaged in gang loitering to (1) inform such persons that they are engaged in gang loitering within an area in which loitering by groups of criminal street gang members is prohibited; (2) order such persons to disperse and remove themselves from within sight and hearing of the place at which the order was issued; and (3) inform those persons that they will be subject to arrest if they fail to obey the order promptly or engage in further gang loitering within sight or hearing of the place at which the order was issued during the following three hours.

The ordinance must further provide that the chief law enforcement officer of a municipality shall designate, by written directive, areas of the municipality in which he has determined that enforcement of such an ordinance is necessary, because gang loitering has enabled criminal street gangs to establish control over identifiable areas, to intimidate others from entering those areas, or to conceal illegal activities. Prior to making this determination, the chief law enforcement officer is required to consult appropriate persons who are knowledgeable about the effects of gang activity in areas in which the ordinance may be enforced. These persons may include, but need not be limited to, members of the law enforcement agency with training or experience related to criminal street gangs; other personnel of that department with particular knowledge of gang activities in the proposed designated area; elected officials; the county prosecutor; and community based organizations. The chief law enforcement officer also is required to periodically review and revise these designations as required.

Finally, the order must provide that any person who fails to obey promptly an order issued under the ordinance or who engages in further gang loitering within sight or hearing of the place at which such an order was issued during the following three hour period is a disorderly person. In addition, the violators are required to perform community service for a period of 30 days. A second or subsequent offense is punishable by a mandatory minimum period of imprisonment of at least 15 days

STATEMENT

This bill permits municipalities to enact ordinances allowing police departments to curb gang loitering.

The bill defines a "criminal street gang" as an ongoing organization, association in fact or group of three or more persons, whether formal or informal, having as one of its substantial activities the commission of one or more of the criminal acts enumerated in the bill, and whose members individually or collectively engage in or have engaged in a pattern of criminal gang activity. The enumerated offenses are violent crimes for which a convicted person would be required to serve 85% of the sentence imposed before being eligible for parole.

Subject to guidelines of the chief law enforcement officer of the municipality, the bill provides that a municipality may enact an ordinance permitting a law enforcement officer who observes a member of a criminal street gang engaged in gang loitering to (1) inform such persons that they are engaged in gang loitering within an area in which loitering by groups of criminal street gang members is prohibited; (2) order such persons to disperse and remove themselves from within sight and hearing of the place at which the order was issued; and (3) inform those persons that they will be subject to arrest if they fail to obey the order promptly or engage in further gang loitering within sight or hearing of the place at which the order was issued during the following three hours.

The ordinance must further provide that the chief law enforcement officer of a municipality shall designate, by written directive, areas of the municipality in which he has determined that enforcement of such an ordinance is necessary, because gang loitering has enabled criminal street gangs to establish control over identifiable areas, to intimidate others from entering those areas, or to conceal illegal activities. Prior to making this determination, the chief law enforcement officer is required to consult appropriate persons who are knowledgeable about the effects of gang activity in areas in which the ordinance may be enforced. These persons may include, but need not be limited to, members of the law enforcement agency with training or experience related to criminal street gangs; other personnel of that department with particular knowledge of gang activities in the proposed designated area; elected officials; the county prosecutor; and community based organizations. The chief law enforcement officer also is required to periodically review and revise these designations as required.

Finally, the order must provide that any person who fails to obey promptly an order issued under the ordinance or who engages in further gang loitering within sight or hearing of the place at which such an order was issued during the following three hour period is a disorderly person. In addition, the violators are required to perform community service for a period of 30 days. A second or subsequent offense is punishable by a mandatory minimum period of imprisonment of at least 15 days.

RESOLUTION REGARDING
PARTNERSHIP FOR ASSESSMENT OF READINESS FOR COLLEGE AND CAREERS ("PARCC") TESTING

WHEREAS, the members of the City Council of the City of Camden fully support educational policies and practices designed to provide results that promote and improve student achievement, college and career readiness—particularly for students with special educational needs or are of limited English proficiency--and best teaching practices, and are deeply concerned with the recent changes to the graduation requirements, and the high stakes and ongoing costs associated with New Jersey's new standardized assessment system; and

WHEREAS, the State of New Jersey is transitioning to a new assessment system with new state tests known as the Partnership for Assessment of Readiness for College and Careers ("PARCC") Assessments; and

WHEREAS, the New Jersey Department of Education ("NJDOE") has replaced the High School Proficiency Assessment ("HSPA"), which had passing rates of 80-90%, with PARCC Assessments, which less than half of all NJ high school seniors have passed; and

WHEREAS, beginning with the class of 2016, the NJDOE has proposed new high school graduation requirements that rely heavily on PARCC, before the validity and reliability of those assessments have been established; and

WHEREAS, New Jersey is one of only two states in the nation using the new PARCC Assessments this year as one graduation exit test; and

WHEREAS, the NJDOE has eliminated the Alternative High School Assessment ("AHSA"), previously used to satisfy state standards by thousands of students unable to pass the HSPA, including many of the state's English Language Learner ("ELL") graduates. For students with limited English proficiency, being forced to take the PARCC test is not only particularly unfair and difficult, but it also has potentially impact their academic outlook; and

WHEREAS, seniors who do not pass the PARCC Assessments must now access the NJDOE's other "options" in order to graduate in June, requiring districts to devote valuable staff time and resources to help students meet these new requirements through even more tests and a time-consuming new graduation appeals process; and

WHEREAS, some of the "options" authorized by the NJDOE for class of 2016 seniors who did not pass the PARCC Assessments include the Scholastic Aptitude Test ("SAT") and the American College Test ("ACT"), which tests require fees, thereby denying equal access to public school students throughout New Jersey; and

WHEREAS, all of the NJDOE's designated "substitute assessments" are "English only" tests that do not provide appropriate accommodation for ELL students; and

WHEREAS, the NJDOE and the State Board of Education ("SBOE") have not yet legally adopted the regulations required to implement the proposed new graduation policies, and none of the additional "options" proposed by the NJDOE as alternative ways to satisfy the new graduation requirements are authorized by the current assessment regulations; and

WHEREAS, legal issues arising from the NJDOE's graduation proposals have led to a court challenge by parents represented by Education Law Center and the American Civil Liberties Union of NJ ("ACLU-NJ"); and

WHEREAS, these policies have neither firm legal footing nor the public understanding, support, and awareness needed for such a dramatic shift in high school graduation standards; and

WHEREAS, beginning with the class of 2020, the NJDOE has further proposed additional regulations that would **deny parents the right to opt their children out of PARCC Assessments, making it impossible for students who opted out of the PARCC Assessments to graduate high school**; and

WHEREAS, NJDOE is proposing to eliminate all other testing options besides PARCC as ways to satisfy state graduation requirements; and

WHEREAS, the use of PARCC assessments or any Value-Added Model (VAM) for assessment purposes of children, schools, and teachers has not been shown to be a reliable method;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Camden that it hereby:

1. Urges the NJDOE to implement the recommendation of the Governor's College and Career Ready Task Force, including a multi-year transition to a new assessment system that does not establish a minimum passing score as a graduation requirement on the new PARCC Assessments; and

2. Urges the legislature and the SBOE to take the necessary steps to implement this recommendation and allow students to graduate during this multi-year transition period on the basis of credits earned, grade point averages, and successful completion of all attendance, service, and other local graduation requirements; and

3. Urges that this multi-year transition to a new assessment system be used to conduct a broad public dialogue among all stakeholders to develop a new consensus around the transparent and equitable assessment policies all our students deserve; and

4. Urges that the State continues to provide multiple pathways to a high school diploma that include alternatives not based on standardized tests, and **that it continues to respect the right of parents to make decisions about the assessment alternatives that are most appropriate for their children, including opting out of such assessment testing**; and

5. Urges the state NJDOE to examine and implement an appropriate provision whereby:

    a. any student with limited English proficiency who has been attending a District, Charter, or Renaissance school for less than two years would be exempt from taking the English Language Arts/Literacy section of the PARCC Assessment Test. Students should not be denied a state-endorsed diploma for not completing the PARCC Assessment Testing.

    b. District, Charter and Renaissance schools would be prohibited from administering a PARCC Assessment Test to a student who has been classified for special education programs and services pursuant to pertinent State law and regulations.

6. Urges that the legislature review/hold hearings on the impact of the NJDOE's proposed graduation rules on future to-be-graduated classes; and

BE IT FURTHER RESOLVED, that a copy of this resolution be sent to Governor Chris Christie; Commissioner David Hespe; Senate President Stephen Sweeney; Senate Education Committee Chair M. Teresa Ruiz; Assembly Education Committee Chair Patrick J. Diegnan, Jr.; the all City of Camden's representatives in the State Legislature; Camden School District Superintendent Paymon Rouhanifard; Mayor Dana L. Redd; and .

MEMORANDUM

To: Frank Moran and Curtis Jenkins
From: Angel Fuentes
Date: May 31, 2016

RE: Ordinance to opt out of PARCC Assessment throughout Camden Public Schools, Charter Schools and Renaissance Schools; that requested parents have a chance to "opt-out" of the standards.

Washington Township's public school district "opted out" of the PARCC Assessment; however, Camden School District is under State watch and 90% of the budget comes from the state, if we can't get the city-wide "Opt-Out, then, we will push for those with disabilities and limited English proficiency.

For students with limited English proficiency, being forced to take the PARCC exam is not only particularly unfair and difficult, but it also has the potential to negatively impact their academic outlook. Putting students who already have a great deal of challenges to overcome in school through hours of testing simply will cause stress to these children without delivering useful results. The Common Core is a set of objectives of where we should be focusing our instruction. That is what we dealt with today. That doesn't say anything about PARCC or the teacher evaluation systems.

Under the Ordinance, any student with limited English proficiency who has been attending school in Camden City for less than two years would be exempt from taking the English Language Arts/Literacy section of the PARCC exam. Students could not be denied a state-endorsed diploma for not completing the assessment.

Students known to have trouble with learning and processing information in English will gain nothing from this test but sleepless nights and an assault on their self-esteem. Prohibiting the administration of this test to students with limited English proficiency will help ensure that the PARCC exam serves its purpose of reasonably assessing what students should know, not irrationally punishing students for what they cannot understand.

A school district shall not administer a PARCC assessment to a student who has been classified as eligible for special education programs and services pursuant to chapter 46 of Title 18A of the New Jersey Statutes, or to a student with limited English proficiency.

This Ordinance would place restrictions on the administration of the assessments developed by the consortium of states known as the Partnership for Assessment of Readiness for College and Careers (PARCC assessments) to certain students. Under the Ordinance, a school district, Charter and Renaissance may not administer a PARCC assessment to special education students or to students with limited English proficiency.

Certainly we have discussed PARCC on the local, county, state and federal level, and how the state and federal can re-evaluate its place in the schools.

- Particularly, I want to take a look at how we assess students with disabilities, and ESL students in relation to PARCC.
- We don't want to penalize teachers who are working within diverse learning conditions.
- Often our best teachers are given the hardest caseload, and that could reflect negatively against them in the current system.
- We need to incentivize these teachers for taking extra time and care with our students, not punish them for it.

1. **Project Narrative**

The Neighborhood Center in Camden respectfully requests $24,985 from the Camden County Division of Open Space to refurbish its baseball field in order to provide recreational opportunities in South Camden. We are applying as a Recreation Facility Enhancement Project.

As one of the main athletic resources on campus, the baseball field plays an integral role in the important work of The Neighborhood Center. As our programs grow, more organizations are utilizing our facilities and more children are filling the campus. This baseball field would be a wonderful asset to our strengthening athletic program as well as a resource for community organizations, schools, and neighborhood residents. The fact that this field would be publicly accessible makes it a valuable community addition.

Over the years, the baseball field has hosted many activities, special events, teams, organizations and community members. Today, it is need of much renovation. The outline perimeters are unclear, not straight, and not within regulation dimensions. The grass is overgrown and uneven. The dirt paths are too small, crooked, and overrun with weeds. The dirt itself needs replacement. The pitchers' mound is barely visible and unraised, and there are no bases.

Our proposal would combat all these issues plaguing the Neighborhood Center baseball field. The work proposal includes re-soding the perimeter of the playing area and restoring the appropriate regulation dimensions, replacing the "dirt" with Infield mix, rebuilding the pitchers' mound, and installing all new bases and anchors.

Beyond basic repairs of the baseball field, the real need of South Camden is a safe place for children, teens, and adults to participate in athletics. There are few other parks or playgrounds nearby. Organized sports are important for both the physical and emotional health of a population that deals with the serious effects of poverty and violence on a daily basis. Teens in particular need opportunities to engage in positive activities during the hours after school. A welcoming space for athletics would allow us to provide that.

2. **Amount of funding requested**

   Based on the estimate received from **Deshayes Residential Resort Design**, we respectfully request $24,985 from the Camden County Division of Open Space to complete our baseball field renovation.

Dear Mr. Stokes ,
I appreciate your time in researching the Tasker information we are requesting in regards to the two Naval Barges acquired by the City of Camden NJ back in 2007. As I indicated the intended need for these barges is no longer feasible for our City and we would like to release them. Please see the attached document with specific information of the original transfer.

Mr. Paul F. Price

Dear Mr. Price:

This correspondence is in response to Congressman Andrew's March 7, 2007 letter to the Department of the Navy, on your behalf, requesting two Navy surplus barges for use as a Waterfront Public Safety Marine Complex for Camden, New Jersey. After review of your request, I have approved the transfer of both surplus barges, designations YC 1601 and YFN 1213. These permanent dispositions of excess Navy property are granted conditioned on the fact the transfers will occur at no additional cost the Navy.

The barges are ready to be released to your custody from their respective Navy commands in Virginia. Please coordinate with Mr. William Rosenbaum at 757-444-4225, for towing/pick-up of YC 1601 from the Naval Facilities Engineering Command Mid-Atlantic. For towing/pick-up of YFN 1213 from Norfolk Naval Shipyard, please coordinate with Mr. Gary Harvey at 757-396-4520 (office) or 757-377-0736 (cell).

I am pleased that our surplus Navy craft will serve as part of the New Jersey's Waterfront Complex and continue to support homeland security efforts. If you should need any further assistance regarding this matter, please contact Lieutenant Colonel Andrew J. Gunderson at (703) 693-4489 or andrew.gunderson@navy.mil.

As discussed yesterday, as Major

Email - PMS 333 - 070613

Cressman has retired and his relief is not yet onboard, please review the attached and below for the appropriate M&RA POC to complete a CIMS tasker assigned to M&RA. Attached are 28 Mar and 30 Mar 07 emails from Mark Deskins, DASN Ships, to Maj. Cressman which addresses a policy under M&RA cognizance and under the authority of 10 USC 2576a for the transfer of equipment to state agencies. The Camden City, NJ Fire Department had requested via Cong Andrews a surplus YC and YF service craft.

Two service craft that have been stricken from the Naval Vessel Register and designated for disposal, YC 1601 held by NAVFAC MIDLANT Norfolk and YFN 1213 held by NAVSHIPYD Norfolk, have been inspected recently by a representative of the Camden City

Fire Department (CCFD). CCFD indicates below that they would prefer YC 1406 over YC 1601 as the YC 1406 is located in close proximity to YFN 1213. However, my Rod Spear has discussed with CCFD Chief Price, who agreed that the 20-year old YC 1601 is a better barge than the 54-year old YC 1406.

Please advise of the process and timeframe to be followed by M&RA to transfer title and ownership of YC 1601 and YFN 1213 as-is, where is to the Camden City Fire Dept, so that we can coordinate release of the vessels from the current Navy custodians.

Mr. Speer, I would like to thank you for your assistance and hard work in helping us with our Public Safety Marine Complex project. The two barges that you have suggested are going to make the project a reality. Also, please relay my gratitude to Bill Rosenbaum, Barry Connolly, and

Gary Harvey for their guidance and assistance.

Mr. Rosenbaum just called and advised me that 1601 was in Norfolk. He further advised that 1406 is the good barge at Portsmouth, and is near where the covered barge (1213) is docked. Please pull that one (1406) from the sale instead of 1601.

I will do anything necessary to assist with the transfer of the barges. I will be guided by Congressman Rob Andrews' Office staff, which will help (especially me) as the process moves forward.

Next step after that will be my request (begging, etc) that one of our port towing companies lash the two barges to one of their regular Hampton Roads to Philadelphia tows, and deliver them for us, free of charge of course (that's where the begging part comes in!).

The South Jersey Port Corporation will pull the barges for the sand blasting, re-zincing, and painting. The Delaware River Port Authority will hopefully pay for sand-blasting and painting as well as the necessary mooring for the barges. And maybe, Camden County can find a few dollars to help finish the complex.

This project will serve the

docking needs of the Camden Police and Fire Departments, Delaware River Port Authority Police Department, our Non-profit Delaware River Marine Firefighting Taskforce, the Camden County Sheriffs Department Dive Team, and a temporary docking area for both the USCG Sector Philadelphia and New Jersey State Police, Marine Police units.

Since both barges will be near the stern of the Battleship New Jersey (BB62), they will be repainted Navy Gray, so that they will fit in with the historic theme for visitors at the Battleship Museum.

Even if I should retire before the

project is completed, I will have someone send pictures of the completed project for your office.

Thank you again,

Respectfully,

Paul F. Price Sr.

Yes, thanks. To be clear are we preparing resolution in support of CFP applying on City's behalf, or is City applying?

Hi Tee,

The City has decided to apply for a project in the Centerville neighborhood to benefit the students attending R.T. Cream Family School and Charles Sumner Elementary. We will apply for $300,000 to construct improvements along Ferry Ave., between Mt. Ephraim and 9th, including Charles, 10th and J. Allen Nimmo.

I have just started working on a scope of work for the cost estimate, so I don't have many details yet, but it will most likely focus on sidewalks, crosswalks, ADA ramps and signage.

Attached is the template resolution from NJDOT which has the language for support and maintenance that must be included.

Thanks for your help with this and let me know if you have any questions.

Kathy

Uzo,

At the direction of Mrs. Hinson, the SRTS Application will be for the Centerville neighborhood, and **not** for Five Points Intersection in East Camden. I still need to get a better understanding of the project, but for now, can you just schedule "A Resolution in Support of a 2016 SRTS Application" on the Council Agenda.

I apologize for the confusion.
